# Advisory Business

---

## Firm Description

Pacific Income Advisers, Inc. (“PIA”), a Delaware Corporation, is federally registered as an investment adviser with the Securities and Exchange Commission (“SEC”) and has been in business since 1986.

PIA is an independent, employee-owned investment advisory firm, with approximately \$ 10.5 billion in fixed income assets under management. For more information on the types of clients we serve, please see the *Types of Clients* section of this brochure.

PIA’s headquarters and principal place of business is located at 1299 Ocean Avenue, Suite 210, Santa Monica, California 90401. Additionally, PIA has regional external sales offices located in Colorado and North Carolina. The PIA High Yield office is located in Manhattan Beach, California.

## Principal Owners

Lloyd McAdams, President and Chief Investment Officer, through the Lloyd McAdams Family Trust, and Heather U. Baines, Chairman, through the Heather U. Baines Family Trust, are the principal owners of PIA. The following employees individually own a minority interest in PIA: Timothy Tarpeneing, Joseph E. McAdams, Thad M. Brown and Robert Sydow.

## Types of Advisory Services

PIA offers fixed income, high yield and convertible styles of investment through three distinct platforms consisting of institutional separately managed accounts (Institutional SMA), retail separately managed wrap-fee program accounts (Retail Wrap-Fee Programs) and mutual funds to those clients described in the *Types of Clients* section.

### Institutional SMA

Currently, PIA invests in different fixed income portfolio styles for its Institutional SMA clientele:

#### Fixed Income

- Aggregate Intermediate;
- Convertibles;
- Corporate;
- Customized Cash Management;
- High Yield;
- Intermediate Core Plus;
- Liability Driven Instruments;
- Limited Duration;
- Market Duration;
- Moderate Duration Ex Credit;

- Moderate Duration;
- Short Term Government;
- Short Term;
- Ultra Short Term;
- Shares in the PIA BBB Bond Fund, Managed Account Completion Shares (“MACS”) and/or the PIA MBS Bond Fund, MACS;
- Shares in the PIA Short-Term Securities Fund and/or the PIA High Yield Fund, Institutional Class (see “PIA Mutual Funds” below).

#### Retail Wrap-Fee Programs

PIA currently participates in approximately 35 retail wrap-fee programs as a sub-adviser or under a dual contract arrangement. PIA does not sponsor any wrap-fee program. PIA offers the following managed account portfolio styles:

- Corporate;
- Limited Duration ETF-MACS;
- Limited Duration MACS;
- Limited Duration SMA Enhanced;
- Limited Duration SMA;
- Market Duration ETF-MACS;
- Market Duration MACS;
- Market Duration SMA Enhanced;
- Market Duration SMA;
- Moderate Duration MACS;
- Shares in the PIA BBB Bond Fund, MACS and/or the PIA MBS Bond Fund, MACS;
- Shares in the PIA High Yield Fund, Institutional Class (see “PIA Mutual Funds” below).

#### PIA Mutual Funds

PIA serves as sub-adviser to the PIA Mutual Fund, an open-end registered mutual fund. PIA offers four investment style funds:

- PIA Short-Term Securities Fund;
- PIA High Yield Fund, Institutional Class;
- PIA BBB Bond Fund, MACS; and
- PIA MBS Bond Fund, MACS.

#### Pooled Investment Vehicles (Other than Investment Company)

- Anworth Mortgage Asset Corporation

For more information on each of the above investment strategies, please see the *Methods of Analysis, Investment Strategies and Risk of Loss* section of this brochure.

The relying adviser, (“Anworth Management LLC”), is an external manager for Anworth Mortgage Asset Corporation (“ANH”), a NYSE listed company and pooled investment vehicle (other than investment company), with December 31, 2014 total assets of approximately \$7.298 Billion, and performs such services and activities relating to assets and operations as may be appropriate.

PIA also provides administrative services (which excludes investment advisory services) to Anworth Mortgage Asset Corporation, a NYSE listed mortgage REIT (ANH). Please see the *Other Financial Industry Activities and Affiliations* section of this brochure for more information.

## Tailored Relationships

Although most client relationships are discretionary and accounts are managed in accordance with the methods and investment strategies as explained in the *Methods of Analysis, Investment Strategies and Risk of Loss* section of this brochure, client may still impose investment limitations and restrictions on certain securities or types of securities. Such restrictions must be submitted to PIA in writing, if not already addressed in the investment management agreement.

## Investment Management Agreement

### Institutional SMA

All clients desiring to open an Institutional Separately Managed Account with PIA must enter into PIA’s investment management agreement and provide an investment policy statement. PIA relies upon the contents of the client’s completed investment policy statement when evaluating the most suitable types of investment products for the client.

### Retail Wrap-Fee Programs

Under wrap fee programs, advisory clients pay a specified fee for investment advisory services and the execution of transactions. The advisory services may include portfolio management and/or advice concerning selection of other advisers, and the fee is not based directly upon transactions in the client’s account. PIA receives a portion of the wrap fee for services.

Retail Wrap-Fee Programs are managed similarly to Institutional SMAs with the following exceptions:

- Corporate position holdings are normally 3% for retail wrap-fee programs and 1-1.5% for Institutional SMA
- The bonds are typically more liquid in the retail wrap-fee program

Although the ultimate responsibility of analyzing suitability of investments rests solely with the program sponsor, PIA requests from the program sponsor detailed client information, including client profiles, account restrictions and other material documents in order to review the investment portfolio(s), guidelines and restrictions (where applicable) selected by the client prior to investment.

### Mutual Funds

All clients desiring to invest in any of PIA's mutual funds must complete a new account form in addition to entering into PIA's investment management agreement and investment policy statement.

### **Assets under Management**

As of December 31, 2014, PIA managed \$10.5 Billion on a discretionary basis and \$0 on a non-discretionary basis.

# Fees and Compensation

---

## Description and Billing

When calculating the value of client investments for reporting or fee calculation purposes, PIA utilizes to the fullest extent possible, recognized and independent pricing services. Whenever valuation information for specific, illiquid, foreign, private or other investments is not available through pricing services, PIA's portfolio manager(s) will obtain and document price information from at least two independent sources, whether it be a broker-dealer, bank, pricing service or other source, where practicable and appropriate. PIA includes accrued interest on fixed-income securities under management when calculating the value of client investments for reporting or fee calculation purposes. The client has the ability to determine the method for computing fair market value used in the fee calculation. Most commonly fees are calculated by applying the advisory fee to the market value at the end of each quarter. The average of the 3 month-end values is used, and in rare situations PIA takes into account the average using significant cash flows.

### Institutional SMA

For all Separately Managed Accounts, PIA charges an annual advisory fee that is calculated and paid quarterly in accordance with the following fee tables:

#### *Annual Fee Based on Total Value of Client Assets under Management with PIA*

<b>Portfolio Style</b>	<b>1st \$50M</b>	<b>Next \$50M</b>	<b>Thereafter</b>

### Retail Wrap-Fee Programs

PIA's fee for its wrap-fee arrangements is determined by separate contracts entered into with various program sponsors. These fees, including any and all trading and transaction costs are "wrapped" into one overall fee as determined and calculated by the wrap-fee sponsor. Annual wrap-fees for PIA clients, charged by the program sponsor, generally vary between 1.00% and 3.00% of the assets under management.

The amount of PIA's portion of the wrap-fee varies dependent upon several factors, including the specific terms agreed between PIA and the wrap-fee sponsor, the client's account size, the client's related investment management accounts, individual account investment restrictions and whether any assets are invested in one of PIA's Mutual Funds. If PIA invests a portion of the wrap-fee client's assets in one of PIA's Mutual Funds, the Mutual Fund has agreed to waive the additional fees or expenses that would otherwise be charged to non-wrap-fee clients.

Important information about the program sponsor's advisory programs, brokerage services, custody relationships and conflicts of interest is available in the Program Sponsor's Form ADV Part 2. To obtain a copy, please contact the Program Sponsor directly.

### Mutual Funds

PIA charges management fees for acting as investment manager for PIA's Mutual Funds. Such fees are calculated and paid monthly in arrears dependent upon the portfolio style.

- |  |                                       |
|--|---------------------------------------|
| • PIA Short-Term Securities Fund           | 0.20% of assets under management      |
| • PIA High Yield Fund, Institutional Class | 0.55% of assets under management      |
| • PIA BBB Bond Fund, MACS                  | Fee charged through Program Sponsor * |
| • PIA MBS Bond Fund, MACS                  | Fee charged through Program Sponsor * |

\* PIA clients and clients of the PIA's Plan Sponsors are permitted to invest in the BBB Bond Fund, the MBS Bond Fund and the PIA High Yield Fund. Therefore, in order to avoid charging clients two advisory fees in respect of assets, which may be invested in these funds, the mutual fund does not directly charge any fees on these funds.

PIA currently serves as investment manager for PIA's affiliated mutual funds (the "Fund(s)"). PIA may recommend an investment in the Funds to any firm client. This may create a conflict of interest due to the fact that PIA receives an account level investment management fee from clients (as stated in their investment management agreement) as well as management fees paid by the Fund (as disclosed in the Fund's prospectus) based on client assets invested in that Fund. Certain clients (including ERISA plans) invested in the Funds will pay fees associated with the Funds' operations but will not pay additional investment management fees to PIA on those assets invested in the Fund. In addition, for clients invested in the Funds, PIA may choose to offset certain client fees, including but not limited to account level fees, in the amount of the management fees received from the Funds. PIA will recommend an investment in Fund shares for client portfolios only if it represents a suitable investment based on that client's investment objectives.

### Pooled Investment Vehicle (Other than Investment Company)

Anworth Management LLC receives a management fee paid monthly in arrears in an amount equal to one-twelfth of 1.20% of ANH Equity as defined in the Management Agreement.

### **Direct Debit of Fees**

Investment advisory fees are generally billed quarterly in arrears unless PIA and the client agree that they will be billed in advance. The client's custodian automatically deducts fees from the client's account at the end of each calendar quarter, in accordance with the written direction and approval of clients. For accounts opened or closed after the beginning of a new calendar quarter, fees will be prorated for the number of days in the quarter the account was under management. Any earned, unpaid fees will be due and payable at the time the account is closed. PIA reserves the right to pro-rate the quarterly fee based on intra-period contributions and withdraws. In cases where PIA has agreed to bill its advisory fees quarterly in advance and either party terminates the provision of investment advisory services before the end of a calendar quarter, fees will be reimbursed to the client on a pro-rata basis for the number of days in the quarter the account was not under management. PIA will return any unearned fees to the client within 10 business days of such termination.

### Institutional SMA

The client's custodian automatically deducts fees from the client's account at the end of each calendar quarter, in accordance with the written direction and approval of clients.

### Retail Wrap-Fee Programs

The program sponsor automatically deducts fees from the client's account at the end of each calendar quarter, in accordance with the written direction and approval of clients.

Wrap-fee clients are required to pay the program sponsor a quarterly advisory fee based on the sponsor's advisory fee and PIA's negotiated management fee.

### **Other Fees**

In connection with PIA's advisory services, clients may incur and are responsible for the fees and expenses charged by their custodians and imposed by broker-dealers. Such fees may include, but are not limited to, custodial fees, transaction costs, fees for duplicate statements and transaction confirmations, brokerage commissions, mutual fund expenses and fees for electronic data feeds and reports. See the *Brokerage Practices* section for more information.

Institutional SMA advisory fees are negotiable. For friends and family of PIA, such advisory fees may be waived or reduced.

PIA and its supervised persons do not receive compensation for the sale of securities or other investment products, including asset-based sales charges, distribution or service fees from the sale of mutual funds.

# Performance-Based Fees

---

If PIA engages in alternative fee arrangements that are based on performance (including unrealized gains), PIA calculates the fee in accordance with the requirements of the Investment Advisers Act of 1940. Such performance fee arrangements are made only with “Qualified Clients” as defined under Rule 205-3 who reside in jurisdictions where performance fees are permitted. Performance fee arrangements create an inherent conflict of interest since they may create incentives for PIA to make investments that are riskier or more speculative than would have been the case in the absence of a performance fee. In order to address any potential conflicts of interest, no portfolio manager’s compensation is tied to any performance-based fees.

## Types of Clients

---

### Description

PIA currently provides advisory services to individuals, high net worth individuals, investment companies, pooled investment vehicles, pension and profit sharing plans, trusts, estates, and charitable organizations, corporations and business entities, state or municipal government entities, insurance companies, strike accounts and hospital funds.

### Account Minimums

The Firm generally does not impose an account minimum for managing client accounts. Typically, for separately managed fixed income portfolio accounts, PIA recommends accounts opening at no less than \$1 MM. Furthermore, clients who wish to open separately managed fixed income portfolio accounts should be aware that frequent requests to liquidate all or a portion of their accounts to a size less than \$10 million will most likely result in odd lot bond transactions. Odd lot bond transactions can usually only be executed at levels that are significantly less favorable than the round lot bond transactions (\$1+ million par value). Therefore, potential clients are discouraged from entering into any separate account investment advisory arrangement with PIA if there is any material likelihood of frequent significant bond portfolio liquidations.

For wrap-fee accounts, generally PIA and the program sponsor recommend accounts opening at not less than \$75,000. However, no minimum annual fee is assessed.

# Methods of Analysis, Investment Strategies and Risk of Loss

---

## Methods of Analysis

The foundation of PIA's investment process is the firm's Yield Curve and Sector Analysis. PIA's yield curve analysis is centered in a fundamental belief that there is an equilibrium shape for the various yield curves, which is a function of several factors that include the economic cycle, the volatility of the financial markets and the supply factors across each part of the yield curve. Market forces tend to distort these yield curves away from their equilibrium shape. Yield curve sectors are analyzed based on their relationship to that equilibrium shape and the embedded risk of each yield curve sector. PIA ranks sectors in terms of their valuations on a risk-adjusted basis. PIA also utilizes other quantitative resources designed to gain probabilistic insight into factors affecting sector valuations. PIA utilizes internal quantitative MBS research and qualitative credit research that produces top-down and bottom-up security analysis. This information is communicated to the Macro Strategy Group and Chief Investment Officer, who then utilize these inputs as part of their decision making process.

## Investment Strategies

PIA offers several taxable, non-taxable, high yield, domestic and investment-grade fixed income products with durations that span the entire yield curve. PIA provides these investment alternatives to both institutional and retail investors via separate accounts and mutual funds. PIA manages the SMA strategies through the means of a composite, which is defined as aggregation of individual portfolios representing a similar investment mandate, objective or strategy.

Duration is a measure of a debt security's price sensitivity. Higher duration indicates bonds that are more sensitive to interest rate changes.

**Aggregate Intermediate** Composite consists of portfolios benchmarked to the Barclays U.S. Intermediate Aggregate Bond Index and is constructed from all major fixed income sectors. Portfolios managed in this style tend to be conservative in terms of sector weights, quality and duration ranges, compared to that of the index. The composite may invest in sectors that are not included in the Index and may not necessarily be representative of its benchmark. The minimum account size for the composite is \$1MM.

**Convertible Securities – Income** This portfolio strives to produce income that meets or exceeds the average yield on the Merrill Lynch All U.S. Convertibles Index. It is constructed from most major convertibles market sectors and uses most ratings categories.

**Corporate** Composite consists of portfolios invested in all aspects of the corporate sector. It is managed in a comparable manner to the Barclays U.S. Corporate Bond Index. Portfolios managed in this style tend to be conservative in terms of sector weights, quality and duration ranges, compared to that of the index. The composite may invest in sectors that are not included in the Index and may not necessarily be representative of its benchmark. The minimum account size for the composite is \$1MM.

**Corporate MACS** Composite consists of “wrap” portfolios invested in all aspects of the corporate sector and utilizes the BBB Bond Fund. It is managed in a comparable manner to the Barclays U.S. Corporate Bond Index. Portfolios managed in this style tend to be conservative in terms of sector weights, quality and duration ranges, compared to that of the index. The composite may invest in sectors that are not included in the Index and may not necessarily be representative of its benchmark. The minimum account size for this composite is \$75 thousand. Prior to October 1, 2014 the minimum account size was \$1 million.

**Customized Cash Management** PIA offers a spectrum of customized Cash Management solutions that attempt to match each client's unique liability structure, while maximizing the asset yield for short term investment pools. PIA offers these customized services to institutions and individuals to help in evaluating the status of investor's liability funding along with expectations about future liability status under various market environments and volatilities. The minimum account size is \$5MM.

**High Yield** Composite consists of portfolios whose major concentration is in high yield bonds, both public and private. Equity-linked securities purchased in conjunction with a debt security and equity securities obtained in exchange offers or insolvency proceedings, as well as leveraged corporate loans may also be included. The portfolios are constrained to be substantially fully invested with minor cash holding. The primary benchmark was formerly the Credit Suisse High Yield Index. The benchmark was changed to the Barclays U.S. High Yield Index on May 01, 2010 since we believe it is more commonly recognized as the industry standard index for the high yield asset class. There is no minimum account size for the composite.

**Intermediate Core Plus** Composite consists of portfolios benchmarked to the Barclays U.S. Intermediate Government/Credit Bond Index and is constructed from all major fixed income sectors. Portfolios managed in this style seek to maximize total return and allow the use of non-investment grade securities as well as other non-benchmark sectors. The composite will tactically invest in sectors outside the index (typically ranging from 10% - 40%) and hold more concentrated positions to enhance returns and diversify risk. The minimum account size for the composite is \$10MM.

**Liability Driven Investments** PIA offers a spectrum of customized LDI strategies that attempt to match each client's unique liability structure, while maximizing the asset yield for fully funded liabilities or maximizing the likelihood of fully funding an underfunded or uncertain liability. PIA offers these customized services to institutions and individuals to help in evaluating the status of investor's liability funding along with expectations about future liability status under various market environments and volatilities. The minimum account size is \$5MM.

**Limited Duration** Composite consists of portfolios benchmarked to the Barclays U.S. Intermediate Government/Credit Bond Index and is constructed from all major fixed income sectors. Portfolios managed in this style tend to be conservative in terms of sector weights, quality and duration ranges, compared to that of the index. The composite may invest in sectors that are not included in the Index and may not necessarily be representative of its benchmark. The minimum account size for the composite is \$1MM.

**Limited Duration MACS** Composite consists of wrap portfolios that invest in completion funds (PIA BBB Bond Fund and PIA Mortgage-Backed Securities Fund) and is comparable to the Barclays U.S. Intermediate Government/Credit Bond Index benchmark, and is constructed from all major fixed income sectors. Portfolios managed in this style tend to be conservative in terms of sector weights, quality and duration ranges compared to that of the index. The composite may invest in sectors that are not included in the Index and may not necessarily be representative of its benchmark. The minimum account size for the composite is \$75K.

**Limited Duration SMA** Composite consists of wrap portfolios that do not invest in completion funds (PIA BBB Bond Fund and PIA Mortgage-Backed Securities Fund) and is comparable to the Barclays U.S. Intermediate Government/Credit Bond Index benchmark, and is constructed from all major fixed income sectors. Portfolios managed in this style tend to be conservative in terms of sector weights, quality and duration ranges compared to that of the index. The composite may invest in sectors that are not included in the Index and may not necessarily be representative of its benchmark. The minimum account size for the composite is \$75K.

**Limited Duration SMA Enhanced** Composite consists of wrap portfolios that invest in the PIA BBB Bond Fund and is comparable to its benchmark, the Barclays U.S. Intermediate Government/Credit Index, and is constructed from all major fixed income sectors. Portfolios managed in this style tend to be conservative in terms of sector weights, quality and duration ranges compared to that of the index. The composite may invest in sectors that are not included in the Index and may not necessarily be representative of its benchmark. The minimum account size for the composite is \$75K.

**Market Duration** Composite consists of portfolios benchmarked to the Barclays U.S. Government/Credit Bond Index and is constructed from all major fixed income sectors. Portfolios managed in this style tend to be conservative in terms of sector weights, quality and duration ranges, compared to that of the index. The composite may invest in sectors that are not included in the Index and may not necessarily be representative of its benchmark. The minimum account size for the composite is \$1MM.

**Market Duration MACS** Composite consists of wrap portfolios that invest in completion funds (PIA BBB Bond Fund and PIA Mortgage-Backed Securities Fund) and is comparable to the Barclays U.S. Government/Credit Bond Index benchmark, and is constructed from all major fixed income sectors. Portfolios managed in this style tend to be conservative in terms of sector weights, quality and duration ranges compared to that of the index. The composite may invest in sectors that are not included in the Index and may not necessarily be representative of its benchmark. The minimum account size for the composite is \$75K.

**Market Duration SMA** Composite consists of wrap portfolios that do not invest in completion funds (PIA BBB Bond Fund and PIA Mortgage-Backed Securities Fund) and is comparable to the Barclays U.S. Government/Credit Bond Index benchmark, and is constructed from all major fixed income sectors. Portfolios managed in this style tend to be conservative in terms of sector weights, quality and duration ranges compared to that of the index. The composite may invest in sectors that are not included in the Index and may not necessarily be representative of its benchmark. The minimum account size for the composite is \$75K.

**Market Duration SMA Enhanced** Composite consists of wrap portfolios that invest in the PIA BBB Bond Fund and is comparable to its benchmark, the Barclays U.S. Government/Credit Index and is constructed from all major fixed income sectors. Portfolios managed in this style tend to be conservative in terms of sector weights, quality and duration ranges compared to that of the index. The composite may invest in sectors that are not included in the Index and may not necessarily be representative of its benchmark. The minimum account size for the composite is \$75K.

**Moderate Duration** Composite consists of portfolios benchmarked to the Barclays U.S. Aggregate Bond Index and is constructed from all major fixed income sectors. Portfolios managed in this style tend to be conservative in terms of sector weights, quality and duration ranges, compared to that of the index. The composite may invest in sectors that are not included in the Index and may not necessarily be representative of its benchmark. The minimum account size for the composite is \$1MM.

**Moderate Duration Ex-Credit** Composite consists of wrap and institutional portfolios that are comparable to their benchmark, the Barclays U.S. Aggregate Ex-Credit Bond Index, and is constructed primarily from U.S. Treasury and Agency sectors. Portfolios managed in this style tend to be conservative in terms of sector weights, quality and duration ranges, compared to that of the index. The composite may invest in sectors that are not included in the Index and may not necessarily be representative of its benchmark. The minimum account size for the composite is \$1MM.

**Moderate Duration MACS** Composite consists of wrap portfolios benchmarked to the Barclays U.S. Aggregate Bond Index and is constructed from all major fixed income sectors. Portfolios managed in this style tend to be conservative in terms of sector weights, quality and duration ranges, compared to that of the index. The composite may invest in sectors that are not included in the Index and may not necessarily be representative of its benchmark. The minimum account size for the composite is \$75K.

**Short Term** Composite consists of portfolios benchmarked to the Barclays U.S. 1-3 Year Government Bond Index and is constructed from all major fixed income sectors. Portfolios managed in this style emphasize capital preservation. The composite may invest in sectors that are not included in the Index and may not necessarily be representative of its benchmark. The minimum account size for the composite is \$1MM.

**Ultra Short** Composite consists of portfolios benchmarked to the Merrill Lynch 1-Year U.S. Treasury Bill Index and is constructed from all major fixed income sectors. Portfolios managed in this style emphasize capital preservation. The composite may invest in sectors that are not included in the Index and may not necessarily be representative of its benchmark. The minimum account size for the composite is \$1MM.

**PIA BBB Bond Fund** Under normal market conditions, the BBB Bond Fund invests at least 80% of its net assets (plus any borrowings for investment purposes) in bonds rated BBB by Standard & Poor's, Baa by Moody's or BBB by Fitch. The BBB Bond Fund may invest up to 50% of its total assets in securities of foreign issuers denominated in U.S. dollars, including issuers located in emerging markets.

The weighted average duration of the BBB Bond Fund will generally range from five to eight years. Duration is a measure of a debt security's price sensitivity. Higher duration indicates bonds that are more sensitive to interest rate changes. Bonds with shorter duration reduce the risk associated with interest rates. Duration takes into account a debt security's cash flows over time, including the possibility that a debt security might be prepaid by the issuer or redeemed by the holder prior to its stated maturity date. In contrast, maturity measures only the time until final payment is due.

The Adviser may invest up to 100% of the BBB Bond Fund's total assets in high-quality, short-term debt securities and money market instruments for temporary defensive purposes. In selecting investments for the BBB Bond Fund, the Adviser will primarily consider credit quality, duration and yield. The Fund's annual portfolio turnover rate may exceed 100%.

In its effort to provide a total rate of return that approximates that of bonds rated within the BBB category by Standard & Poor's, Baa by Moody's or BBB by Fitch, the BBB Bond Fund may invest up to 20% of its net assets in futures, options and other derivatives. The Fund may sometimes use derivatives as a substitute for taking a position in bonds rated BBB or Baa and/or as part of a strategy designed to reduce exposure to other risks, such as interest rate risk.

The Adviser may sell a security as part of its overall investment decision to remove an overvalued security or reposition the BBB Bond Fund's assets into a more attractive security.

**PIA MBS Bond Fund** Under normal market conditions, the MBS Bond Fund invests at least 80% of its net assets (plus any borrowings for investment purposes) in bonds that meet the criteria for inclusion in the MBS Index. In pursuing its objective, the Adviser attempts to provide a return that exceeds the total rate of return of the MBS Index, although there is no guarantee that the Adviser will be able to do so. The MBS Index represents the universe of mortgage-backed securities issued by the Government National Mortgage Association ("GNMA"), Federal National Mortgage Association ("FNMA") and Federal Home Loan Mortgage Corporation ("FHLMC") with a minimum issue size of \$1 billion, effective as of April 1, 2014. The Adviser will primarily consider credit quality, effective duration and yield in selecting investments for the Fund's portfolio. The weighted average duration of the Fund will generally be in a range of plus or minus one year of the effective duration of the MBS Index.

The MBS Bond Fund may invest up to 20% of its net assets in futures, options and other derivatives. The Fund may sometimes use derivatives as a substitute for taking positions in bonds and/or as part of a strategy designed to reduce exposure to other risks. The Fund may also utilize the "To Be Announced" ("TBA") market for MBS for up to 100% of its net assets. The TBA market allows investors to gain exposure to MBS securities with certain broad characteristics (maturity, coupon, age) without taking delivery of the actual securities until the settlement day which is once every month. In addition, the Fund may utilize the dollar roll market, in which one sells, in the TBA market, the security for current

month settlement, while simultaneously committing to buy the same TBA security for next month settlement. The Fund may utilize the dollar roll market for extended periods of time without taking delivery of the physical securities. The Fund may also invest up to 20% of its net assets in collateralized mortgage obligations (“CMOs”), asset-backed securities, commercial mortgage-backed securities and other mortgage-related securities that are not part of the MBS Index.

The Adviser may invest up to 100% of the MBS Bond Fund’s total assets in high-quality, short-term debt securities and money market instruments for temporary defensive purposes.

The MBS Bond Fund’s annual portfolio turnover rate will generally exceed 100%.

The Adviser will sell a security as part of its overall investment decision to remove an overvalued security or reposition the MBS Bond Fund’s assets into a more attractive security.

**PIA High Yield Fund** The Fund invests, under normal circumstances, at least 80% of its net assets (plus any borrowings for investment purposes) in a diversified portfolio of domestic and foreign high yield instruments, defined as bonds (“junk bonds”), convertible securities, forward commitments, loan participations and assignments, and preferred stocks. High yield instruments are securities rated below investment grade by Moody’s Investors Service, Inc. (“Moody’s”), or equivalently rated by Standard & Poor’s Rating Services (“S&P”) or Fitch, Inc. (“Fitch”), or, if unrated, determined by the Adviser to be of comparable quality.

The remainder of the Fund’s assets may be invested in investment grade instruments including bonds, debt securities, convertible securities, and other similar instruments issued by various U.S. and non-U.S. public- or private-sector entities, and loan participations and assignments.

The average portfolio duration of the Fund normally varies within two years (plus or minus) of the duration of the Barclays U.S. Corporate High-Yield Index (the “Barclays Index”) at any point in time. The Barclays Index had a duration of 4.26 years as of January 31, 2015. Duration is a measure of the expected life of a fixed income security that is used to determine the sensitivity of a security’s price to changes in interest rates.

The Fund may invest up to 5% of its net assets in securities denominated in foreign currencies. The Fund may invest up to 10% of its net assets in securities and instruments that are economically tied to emerging market countries.

The Fund may invest up to 5% of its net assets in derivative instruments, such as options, futures contracts or swap agreements. From time to time, the Fund may experience significant inflows; if this occurs, the Fund may, on a temporary or interim basis, invest these new assets (potentially in an amount which may approach up to 30% of the Fund’s total net assets if new flows were extremely large relative to the Fund’s current assets) in a combination of derivative instruments and other investment companies, including exchange-traded funds (“ETFs”), until such time as the Adviser can identify and invest in appropriate high yield instruments in accordance with the Fund’s principal strategy. The Fund may invest in derivatives for both bona fide hedging purposes and for speculative purposes. The Fund

may purchase or sell securities on a when-issued, delayed delivery or forward commitment basis. The Fund may, without limitation, seek to obtain market exposure to the securities in which it primarily invests by entering into a series of purchase and sale contracts or by using other investment techniques (such as buy backs or dollar rolls).

The Adviser may invest up to 100% of the Fund's total assets in high-quality, short-term debt securities and money market instruments for temporary defensive purposes.

In selecting investments for the Fund, the Adviser will consider the risks and opportunities presented by the industries within the high yield universe. The Adviser evaluates the bond issuers within the selected industries and identifies those investments which the Adviser believes have favorable risk reward characteristics and match the Adviser's investing philosophy. The Adviser evaluates various criteria such as historical and future expected financial performance, management tenure and experience, capital structure, free cash flow generation, barriers to entry, security protections, yield and relative value, and ownership structure. Investments are targeted that have individual yield premiums which appear to be favorable and are viewed by the Adviser as having a comparable or lower probability of default and/or loss risk. The Adviser may sell an investment as part of its overall investment decision to reposition assets into a more attractive security or to implement a change in maturity and quality to the overall portfolio.

**PIA Short Term Securities Fund** The Fund invests, under normal circumstances, at least 80% of its net assets (plus any borrowings for investment purposes) in fixed-income securities. The Fund expects that the weighted average duration of the securities in the portfolio will typically be less than three (3) years. Fixed-income securities in which the Fund may invest include:

- short-term and intermediate-term corporate obligations which may be rated, or with respect to up to 15% of the Fund's net assets, unrated or rated below investment grade (*i.e.*, junk bonds);
- obligations issued or guaranteed by the U.S. and foreign governments and their agencies and instrumentalities;
- mortgage-backed securities; and
- asset-backed securities.

The Fund may also invest in bank obligations, collateralized mortgage obligations, foreign fixed-income securities (including those from emerging markets) and hybrid securities such as convertible bonds. Additionally, the Fund may invest up to 30% of its net assets in derivative instruments including debt futures contracts, stock index futures contracts, option contracts, options on securities, options on securities indexes, options on debt futures, credit default swaps, interest rate swaps and other derivative securities. The Fund invests in such derivative instruments primarily for hedging purposes.

The Fund may invest up to 20% of its net assets in other investment companies (mutual funds and exchange-traded funds ("ETFs")). Investments in other investment companies that invest predominantly

in short-term fixed income securities are considered short-term fixed income securities for purposes of the Fund's 80% test and investments in other investment companies that invest predominantly in securities rated less than investment grade are considered securities rated less than investment grade for purposes of the Fund's 15% test.

Duration is a measure of a debt security's price sensitivity. Higher duration indicates bonds that are more sensitive to interest rate changes – the higher the duration, the more the bond's price will drop as interest rates go up. Bonds with shorter duration are less sensitive to interest rate changes. For example, a duration of three years means that a debt security's price would be expected to decrease by approximately 3% with a 1% increase in interest rates. Duration takes into account a debt security's cash flows over time including the possibility that a debt security might be prepaid by the issuer or redeemed by the holder prior to its stated maturity date. In contrast, maturity measures only the time until final payment is due.

The Adviser may invest up to 100% of the Fund's total assets in high-quality, short-term debt securities and money market instruments for temporary defensive purposes.

In selecting investments for the Fund, the Adviser primarily will consider credit quality, duration and yield. The Adviser may actively trade the Fund's portfolio. The Fund's annual portfolio turnover rate may exceed 100%.

The Adviser may sell a security as part of its overall investment decision to reposition assets into a more attractive security or to implement a change in maturity and quality to the overall portfolio. The Fund is a non-diversified investment company.

## Risk of Loss

Although PIA makes every effort to preserve each client's capital and achieve real growth of wealth, investing in the securities involves risk of loss that each client should be prepared to bear.

Investors in PIA's products may lose money and success cannot be guaranteed. There are risks associated with investments in the types of securities in which PIA invests. These risks include:

**Market Risk** The prices of the securities in which PIA invests may decline for a number of reasons including in response to economic developments and perceptions about the creditworthiness of individual issuers.

**Active Management Risk** PIA is subject to active management risk because it is an actively managed portfolio. PIA's management practices and investment strategies might not work to produce the desired results.

**Interest Rate Risk** In general, the value of bonds and other debt securities falls when interest rates rise. Longer term obligations are usually more sensitive to interest rate changes than shorter term obligations.

**Credit Risk** The issuers of the bonds and other debt securities held in PIA portfolios may not be able to make interest or principal payments.

**Prepayment Risk** Issuers of securities held in PIA portfolios may be able to prepay principal due on these securities, particularly during periods of declining interest rates. Securities subject to prepayment risk generally offer less potential for gains when interest rates decline, and may offer a greater potential for loss when interest rates rise. Prepayment risk is a major risk of mortgage-backed securities.

**Risks Associated with Mortgage-Backed Securities** These include Market Risk, Interest Rate Risk, Credit Risk, Prepayment Risk as well as the risk that the structure of certain mortgage-backed securities may make their reaction to interest rates and other factors difficult to predict, making their prices very volatile.

**Liquidity Risk** Low or lack of trading volume may make it difficult to sell securities held in PIA portfolios at quoted market prices.

**Derivatives Risk** PIA may invest in derivative securities for both bona fide hedging purposes and for speculative purposes. A derivative security is a financial contract whose value is based on (or “derived from”) a traditional security (such as a bond) or a market index. Derivatives involve the risk of improper valuation, the risk of ambiguous documentation and the risk that changes in the value of the derivative may not correlate perfectly with the underlying security.

**Leverage Risk** The use of leverage can enhance investment returns. Leverage, however, also increases risks. The use of leverage increases the risk of loss resulting from various factors including rising interest rates, increased interest rate volatility, downturns in the economy and reductions in the availability of financing or deterioration in the conditions of any of the portfolio investment assets.

**Adjustable Rate and Floating Rate Securities Risks** Although adjustable and floating rate debt securities tend to be less volatile than fixed-rate debt securities, they nevertheless fluctuate in value.

**Risks Associated with Inflation and Deflation** Inflation risk is the risk that the rising cost of living may erode the purchasing power of an investment over time. Deflation risk is the risk that prices throughout the economy decline over time – the opposite of inflation.

**Non-Diversification Risk** The Funds are non-diversified mutual funds. As such, they will invest in fewer securities than a diversified mutual fund and their performance may be more volatile because changes in a single security in a Fund’s portfolio may have a greater effect on the Fund. If the securities in which a Fund invests perform poorly, the Fund could incur greater losses than if the Fund was diversified.

**Portfolio Turnover Risk** A high portfolio turnover rate (100% or more) has the potential to result in the realization and distribution to shareholders of higher capital gains, which may subject you to a higher tax liability. A high portfolio turnover rate also leads to higher transactions costs.

**To Be Announced (“TBA”) Securities Risk** PIA may invest in TBA securities. In a TBA transaction, a seller agrees to deliver a security at a future date, but does not specify the particular security to be delivered. Instead, the seller agrees to accept any security that meets specified terms. The principal risks of TBA transactions are increased credit risk and increased overall investment exposure.

**Dollar Roll Risk** Dollar rolls involve the risk that PIA’s counterparty will be unable to deliver the mortgage-backed securities underlying the dollar roll at the fixed time. If the buyer files for bankruptcy or becomes insolvent, the buyer or its representative may ask for and receive an extension of time to decide whether to enforce PIA’s repurchase obligation. In addition, PIA earns interest by investing the transaction proceeds during the roll period. Dollar roll transactions may have the effect of creating leverage in PIA’s portfolio.

**Risks Associated with High Yield Securities** The Fund may invest in high yield securities. Securities with ratings lower than BBB or Baa are known as “high yield” securities (commonly known as “junk bonds”). High yield securities provide greater income and opportunity for gains than higher-rated securities but entail greater risk of loss of principal.

**CMO Risk** A CMO is a hybrid between a mortgage-backed bond and a mortgage pass-through security. Similar to a bond, interest and prepaid principal on CMOs is paid, in most cases, semi-annually. CMOs may be collateralized by whole mortgage loans, but are more typically collateralized by portfolios of mortgage pass-through securities guaranteed by GNMA, FHLMC or FNMA, and their income streams. CMOs may offer a higher yield than U.S. government securities, but they may also be subject to greater price fluctuation and credit risk, as well as liquidity risk.

**Government-Sponsored Entities Risk** PIA invests in securities issued or guaranteed by government-sponsored entities, including GNMA, FNMA and FHLMC. However, these securities may not be guaranteed or insured by the U.S. Government and may only be supported by the credit of the issuing agency.

**Counterparty Risk** PIA transactions involving a counterparty are subject to the risk that the counterparty or a third party will not fulfill its obligation to PIA. Counterparty risk may arise because of the counterparty’s financial condition (i.e., financial difficulties, bankruptcy, or insolvency), market activities and developments, or other reasons, whether foreseen or not. A counterparty’s inability to fulfill its obligation may result in significant financial loss to the Fund.

**Preferred Stock Risk** Preferred stocks may be more volatile than fixed income securities and are more correlated with the issuer’s underlying common stock than fixed income securities. Additionally, the dividend on a preferred stock may be changed or omitted by the issuer.

**Foreign Securities and Emerging Markets Risk** The value of the PIA’s foreign investments may be adversely affected by changes in the foreign country’s exchange rates, political and social instability, changes in economic or taxation policies, decreased illiquidity and increased volatility. Foreign companies may be subject to less regulation than U.S. companies. Investment in emerging markets involves additional risks, including less social, political and economic stability, smaller securities markets and lower trading volume, restrictive national policies and less developed legal structures.

**Currency Risk** PIA is subject to the risk that foreign currencies will decline in value relative to the U.S. dollar, or, in the case of hedging positions, that the U.S. dollar will decline in value relative to the currency being hedged.

**Loan Participation and Assignment Risk** Loan participations and assignments involve special types of risk, including credit risk, interest rate risk, liquidity risk, and the risks of being a lender. Bank loans (i.e., loan participations and assignments), like other high yield corporate debt obligations, have a higher risk of default and may be less liquid and/or become illiquid.

# Disciplinary Information

---

PIA does not have disciplinary information to report.

# Other Financial Industry Activities and Affiliations

---

## Mutual Funds

PIA is the investment adviser to four (4) PIA mutual funds: PIA Short-Term Securities Fund, PIA High Yield Fund, PIA BBB Bond Fund, MACS, and PIA MBS Bond Fund, MACS, which are overseen by US Bank Advisory Series Trust. PIA has no financial interest outside of the investment advisory fee. Please see *Fees and Compensation* and *Investment Strategies* for more information on PIA's mutual funds.

## Anworth Mortgage Asset Corporation and Anworth Management LLC

Lloyd McAdams, PIA's President and Chief Investment Officer, and Heather Baines, PIA's Chairman own approximately 0.94% of the issued stock in Anworth Mortgage Asset Corporation ("Anworth Mortgage"), a NYSE listed mortgage REIT. Lloyd McAdams also serves as Chairman, President and Chief Executive Officer of Anworth Management.

Lloyd McAdams, PIA's President and Chief Investment Officer, Heather Baines, PIA's Chairman, Joseph McAdams, a PIA Managing Director and Thad Brown, PIA's Managing Director and Chief Operating and Compliance Officer own all of the outstanding membership interests of Anworth Management LLC ("Anworth Management"), a portfolio manager for a pooled investment vehicle (other than an investment company). Lloyd McAdams also serves as the Manager of Anworth Management.

Additionally, other officers and employees of PIA are also officers of Anworth Mortgage and members and employees of Anworth Management.

Anworth Management is the external manager for Anworth Mortgage and the relying adviser with PIA, the filing adviser. In exchange for portfolio management services, Anworth Management receives a management fee based on a percentage applied to the Equity of Anworth Mortgage as defined in the Management Agreement.

Each officer and employee receives compensation from Anworth Management.

Although such persons are under no contractual obligation to devote any minimum amount of their time to PIA, each has defined roles and responsibilities that must be fulfilled in order to continue employment with the adviser.

Anworth Mortgage has also entered into an administrative services agreement with PIA. In consideration of the administrative services provided by PIA, Anworth Mortgage pays PIA a fee in accordance with an administrative services agreement.

PIA employees, who are also officers of Anworth Mortgage and employees of Anworth Management, may in their capacity as an officer or employee, effect trades for Anworth Mortgage's account. For more information on the possible conflicts of interest and how PIA addresses them, please see *Code of Ethics, Personal Trading and Participation or Interest in Client Transactions*.

#### Syndicated Capital

PIA's President and Chief Investment Officer, Lloyd McAdams, and PIA's Chairman, Heather U. Baines, are sole stockholders of Syndicated Capital, Inc. ("Syndicated Capital"), a registered broker-dealer, registered investment adviser and general insurance agency. PIA has no direct or indirect dealings with Syndicated Capital's registered investment adviser.

PIA does not execute trades through Syndicated Capital's broker-dealer, unless directed to do so by a client, which PIA discourages. If so directed, this could act as an incentive for Mr. McAdams to direct transactions to Syndicated Capital and should Syndicated Capital accrue any profit or other benefit from providing custody or executing trades for PIA's clients, Mr. McAdams would benefit from the revenue received by Syndicated Capital.

Some of PIA's employees are registered representatives of Syndicated Capital, Inc., and in that capacity they may receive compensation in relation to client account securities transactions executed through Syndicated Capital. Therefore, the receipt of this compensation may act as an incentive for such employees to execute transactions through Syndicated Capital even if best execution could be achieved elsewhere. Additionally, should Syndicated Capital accrue any profit or other benefit from providing custody or executing trades for PIA's clients, Lloyd McAdams will receive personal economic benefits from the revenue received by Syndicated Capital.

#### Grandview Capital Management

Additionally, Grandview Capital Management, LLC ("GCM") is a separate investment advisory firm. All employees of GCM are also employees of PIA. These dual roles impose multiple responsibilities that may create a conflict of interest of which clients should be aware. Each employee receives compensation from GCM. Dual employees may give advice and take action with respect to GCM's account that may differ from advice given or the timing or nature of action taken with respect to any PIA client account. PIA believes that GCM conflicts are mitigated by the fact that GCM only manages a Collateralized Loan Obligation, which is not in the asset class of PIA.

PIA Farmland, Inc.

Lloyd McAdams, PIA's President and Chief Investment Officer, is the sole director and Chairman of PIA Farmland, Inc. ("PIA Farmland"). Heather Baines, PIA's Chairman, and Joseph McAdams, a PIA Managing Director, are officers and employees of PIA Farmland and serve on its Investment Committee. PIA Farmland is a privately-held real estate investment trust incorporated in February 2013 that invests in U.S. farmland properties to lease to independent farm operators. Other officers and employees of PIA, Anworth Mortgage and Anworth Management, LLC are also officers and employees of PIA Farmland. All of PIA Farmland's officers and employees are under no contractual obligations to that company.

PIA is the external manager of PIA Farmland and, in exchange for portfolio management and other related services, receives a management fee based on a percentage of the Total Assets of PIA Farmland, as defined in the Management Agreement between PIA and PIA Farmland. For each of the first five fiscal years of PIA Farmland, PIA has agreed to reimburse PIA Farmland any amount that the sum of the management fee plus certain other expenses (as defined in the Management Agreement) exceeds 1.9% of Total Assets but not in an amount that exceeds the management fee.

PIA Farmland has also entered into an Administrative Services Agreement and a Sublease Agreement with PIA and in exchange for the services provided, PIA will receive fees in accordance with those agreements.

PIA has also agreed to pay on behalf of PIA Farmland various organizational and offering costs and those costs will only be reimbursed by PIA Farmland when its total stockholders' equity at the end of a calendar quarter exceeds \$20 million.

PIA has not, in the past, managed a portfolio of farmland properties. PIA does not and will not make loans to or investments in any company with which PIA Farmland has, or intends to enter into, a lease and will not co-invest with PIA Farmland in any real estate transaction.

# Code of Ethics, Personal Trading and Participation or Interest in Client Transactions

---

## Code of Ethics and Personal Trading

To avoid potential conflicts of interest, PIA has adopted a Code of Ethics (“Code”). This Code provides employees with guidance in their ethical obligations to clients and governs their personal securities trading activities. PIA and its employees owe a duty of loyalty, fairness and good faith towards their clients, and the obligation to adhere to the general principles of the Code. The Code prohibits the holding of certain securities and outlines PIA’s expectations to report personal trading, including exceptions to such reporting, reporting of political contributions, reporting of gifts, entertainment and other forms of non-cash compensation, and escalation and enforcement processes. A copy of PIA’s Code in its entirety is available upon written request.

Some employees may transact in the same securities as the client account. In those situations, the account is a PIA advisory account, all trades are reviewed and approved by management and specific pre-determined allocation procedures are followed.

Under unique circumstances, the CCO may in his discretion permit an employee to sell a PIA watch list security in his/her Personal Account if the CCO, in his sole discretion, determines that there would be no impact to PIA clients.

## Participation or Interest in Client Transactions

### Anworth Mortgage Asset Corporation

Although PIA does not recommend Anworth Mortgage securities for its client’s portfolios, some clients may nevertheless own Anworth securities in their portfolio. In this event PIA neither charges a fee nor includes the securities in the calculation of assets under management.

Officers and employees of PIA, who may also be officers and employees of Anworth Management LLC, may recommend Mortgage Backed Securities (“MBS”) to its clients that may also be recommended to Anworth Mortgage. PIA believes that any potential conflicts of interest are mitigated in part by the fact that the mortgage backed securities (“MBS”) market is characterized by an abundance of available securities and the supply of MBS typically targeted by ANH and PIA client accounts, is rarely insufficient. However, in the unlikely event that there is an insufficient supply to satisfy the competing demands of ANH and PIA’s clients, dual employees are required to attempt to mitigate such conflicts by determining whether the investment in question is more suitable for ANH or PIA clients based on their respective

investment strategies and guidelines relating to acquisition of assets, leverage, liquidity and other factors that such dual employees determine to be appropriate. Dual employees may give advice and take action with respect to ANH's account that may differ from advice given or the timing or nature of action taken with respect to any PIA client account. PIA makes available copies of the latest annual report of ANH to all PIA clients upon written request. For more information on PIA's affiliation with ANH see the *Other Financial Industry Activities and Affiliations* section of this brochure.

#### Mutual Funds

PIA is the investment adviser for four (4) mutual funds: PIA Short-Term Securities Fund, PIA High Yield Fund, PIA BBB Bond Fund, MACS, and PIA MBS Bond Fund, MACS, which are overseen by US Bank Advisors Series Trust. PIA has no financial interest outside of the investment advisory fee. Please see *Fees and Compensation* and *Investment Strategies* for more information on PIA's mutual funds.

# Brokerage Practices

---

## Selecting Brokerage Firms & Best Execution

### Fixed Income

When the Firm has full discretion to select broker-dealers, PIA takes a two-step approach to selecting broker-dealers and executing client transactions. First, PIA's Portfolio Management Team creates and periodically maintains an Approved Broker List of those broker-dealers it believes provides a sufficiently high level of qualitative service for its fixed income clients. The Portfolio Management Team considers the following factors when creating and maintaining the Approved Broker List: execution capabilities; the confidentiality provided by the broker; availability of technological aids to process trade data; opportunity for price improvement; the promptness of execution of securities transactions; competent block trading coverage ability, if necessary; capital strength and stability; reliable and accurate communications and settlement capabilities; administrative ability; knowledge of other buyers and sellers; the broker's ability and willingness to position a portion of the order; the financial stability of the broker-dealer; research provided; breadth of services provided to clients; and availability of information regarding the most favorable market for executing the trade. Second, when executing trades, with respect to fixed income trades, Portfolio Managers and Traders are permitted only to use those broker-dealers that are on the Approved Broker List. Best execution for a client is accomplished through timely submission of electronic or other bids/letters to the broker-dealers offering the best price.

The reasonableness of brokerage bid/ask spreads is a factor PIA's Portfolio Management Team considers when maintaining its Approved Broker List. It is PIA's opinion that the expectation of a broker-dealer to receive a reasonable bid/ask spread or profit is necessary to maintain PIA's ability to benefit from effective communication, quality executions and brokerage services and transactions with that broker-dealer. This is an important consideration when PIA negotiates bid/ask spreads with broker-dealers; notwithstanding PIA's approach of selecting the approved broker-dealer offering the best transaction price on a transaction by transaction basis, this may still result in a client paying a commission higher than that obtainable from some other broker-dealers.

Fixed income securities are often purchased from the issuer or a primary market maker acting as a principal on a net basis with no brokerage commission paid directly by the client. Such securities may also be purchased from underwriters at net prices that include underwriting fees.

By following the above processes, PIA attempts to achieve best execution and mitigates the conflict of interest that may be produced by the association with Syndicated Capital as discussed in the *Other Financial Industry Activities and Affiliations* section of this brochure.

## Research and other Soft Dollar Benefits

Section 28(e) of the Securities Exchange Act of 1934 provides a "safe harbor" to investment advisers who use commission dollars of their advised accounts to obtain investment research and brokerage

services that provide lawful and appropriate assistance to the adviser in performing investment decision-making responsibilities. Conduct outside of the safe harbor of Section 28(e) is subject to the traditional standards of fiduciary duty under state and federal law.

PIA will not enter into any formal “soft dollar commitments/arrangements”, written or verbal, explicit or implied, with any broker-dealers. A soft dollar commitment/arrangement is viewed by PIA as a commitment, understanding or agreement to pay increased commissions, or direct trades to a broker-dealer, in exchange for the receipt of research. PIA may, however, effect transactions for clients with broker-dealers who provide PIA with research or brokerage products and services, providing lawful and appropriate assistance to the Firm in the performance of its investment decision-making responsibilities. Research and brokerage products and services received from broker-dealers are supplemental to PIA's own research efforts. PIA does not separately compensate broker-dealers with soft dollars for such products and services. As noted above, the Portfolio Management Team consider the full range and quality of a broker-dealer's services when placing brokerage to ensure that transactions are the most favorable under the circumstances.

### Directed Brokerage

PIA does not direct, recommend, request or require that its clients direct us to execute transactions through a specified broker dealer. PIA does accept and will place orders with brokerage firms pursuant to direction received from investment advisory clients ("directed brokerage"). If a client or wrap-fee sponsor specifically directs PIA to use a particular broker-dealer, such clients and/or the appropriate wrap-fee sponsor will not be able to participate in aggregate trades, and may incur higher commission rates than other clients who allow PIA to have full brokerage discretion. These clients may also receive less favorable prices and execution. In most of PIA's wrap-fee arrangements, the program sponsor directs PIA to use its own or affiliated broker-dealer to effect wrap-fee client transactions.

### Order Aggregation

Where possible and when advantageous to clients PIA will aggregate trades of accounts. Trade aggregation, or “bunching of orders,” generally results in better execution and/or better-realized prices. Because of prevailing market conditions, it may not be possible to execute all shares of an aggregated trade, in which case PIA will allocate the trade among participating accounts in accordance with PIA's Allocation and Aggregation of Orders Policy.

In order to ensure that all portfolios are treated fairly it occasionally becomes necessary to use an allocation process in those situations in which the security purchased is not in a sufficient quantity to be distributed to all portfolios in the desired portfolio holding percentage. The portfolio manager determines which process is fair and equitable with respect to the portfolios they manage. The methods employed include “pro-rata” whereby the same percentage is allocated to all portfolios even though the percentage is less than a normal allocation and “rotation” whereby a full allocation is given to one group of portfolios and the next allocation is given to another group which rotates so that an attempt is made to give all groups an allocation over time.

Separate portfolio managers manage the High Yield composite from other portfolios that have a High Yield allocation. In order to avoid trade aggregation conflicts, these groups maintain separate

transaction recommendations and do not communicate these recommendations. Accordingly, any potential trade allocation is strictly within each group as opposed to between the two groups, and, as a result, there may be instances in which a trade for one group is placed by a Portfolio Manager or prior to trades for the other group.

# Review of Accounts

---

## Periodic Reviews

The Chief Investment Officer is responsible for overseeing material changes to both the institutional SMAs and retail wrap-fee program portfolio strategies. However, the day-to-day portfolio decisions on developing and implementing a portfolio strategy for each account is performed by PIA's portfolio managers. All portfolios are reviewed on an ongoing basis. Furthermore, all accounts are reviewed at least quarterly by a portfolio manager to evaluate compliance with client objectives and to analyze portfolio rates of return.

## Review Triggers

More frequent reviews may be triggered by material changes in variables such as the client's individual circumstances, or the market, political or economic environment. If a rating on a security is downgraded below the minimum in the client's investment guidelines, the security will be reviewed by the portfolio manager for potential sale.

## Regular Reports

PIA delivers written quarterly account summary reports, which include performance, portfolio appraisals, transactions and cash and asset holdings, to clients invested in separately managed accounts, to program sponsors in the case of PIA's wrap-fee clients, and fund administrators for the mutual fund clients. In addition, PIA will deliver the following reports to clients upon written request: asset listings, rate of return evaluations, economic analysis reports, asset allocation reports and investment strategy reports.

# Client Referrals and Other Compensation

---

## Economic Benefit

In exchange for commissions generated by discretionary trading activity, PIA may from time to time receive research services from a variety of brokerage firms. PIA may also direct brokerage to firms who refer clients to the firm. See the Brokerage Practices section of this Brochure for a description of the services and benefits PIA may receive from brokerage firms.

## Referrals

Although PIA has no solicitation agreements currently, it may in the future. PIA will pay an annual fee as negotiated with each solicitor equal to a percentage of the aggregate assets to the third party. Client referral and solicitation arrangements by nature present an inherent conflict of interest between the adviser and client. As such, PIA will comply with Rule 206(4)-3 (the Cash Solicitation Rule) under the Investment Advisers Act of 1940, which requires that among other things, that PIA not compensate any party for client referrals without a written agreement. This rule also requires that prospective clients be provided disclosures by the third party, which clearly describes the solicitation terms and compensation arrangement. The advisory fees charged to clients are not increased in any way as a result of the referral fees paid by PIA to persons referring clients.

# Custody

---

## Custody

PIA is not a broker-dealer and does not take possession of client assets.

Our clients' assets are housed in nationally recognized banks or brokerage firms, otherwise known as custodians. PIA has a limited power of attorney to place trades on the client's behalf. PIA does not have the authority to directly debit client accounts for quarterly fees, though the client may direct its custodian to automatically debit and remit fees to PIA. See the *Fee Billing and Direct Debit of Fees* of this brochure. PIA requires that the custodian, selected by the Client, send quarterly, or more frequent, account statements directly to our Clients. We urge Clients to compare the account statements they receive from the qualified custodian with those reports they receive from PIA (if requested).

## Account Statements

The client will receive account statements directly from the broker-dealer, bank or other qualified custodian. PIA urges the client to compare the statement the client receives from the qualified custodian with the statement the client receives from PIA.

# Investment Discretion

---

## Discretionary Authority for Trading & Limited Power of Attorney

Unless otherwise agreed with a client in writing, PIA has complete discretion, in accordance with a limited power of attorney authorized in writing in the client's investment management agreement, over the selection of brokers and selection and amount of securities to be bought or sold without obtaining specific client consent. The only limitation on this discretion is that PIA must manage all client accounts in accordance with the portfolio's guidelines, applicable client restrictions and/or investment policy statements and mutual fund investment guidelines.

# Voting Client Securities

---

## Proxy Votes

In 2003 the Securities and Exchange Commission (“SEC”) adopted Rule 206(4)-6 requiring formal proxy voting policies and procedures for SEC registered investment advisers with voting authority over client portfolio securities. Pursuant to this rule, PIA adopted a policy to vote proxies for portfolio securities, consistent with the best interests of its clients unless any client explicitly retains responsibility for proxy voting. PIA maintains written policies and procedures for the handling, research, voting and reporting of proxy voting and makes appropriate disclosures about its proxy policies and practices.

Any conflict or potential conflict of interest that arises in the execution of PIA’s proxy voting responsibilities will be referred to PIA’s Compliance Committee who will review and resolve any such conflict in the best interest of all affected clients by either deciding how to vote the proxy or (unless the client is an ERISA client) requesting the client to vote their own proxies or abstaining from any voting. In all cases, the conflict and any specific action taken will be disclosed to all affected clients.

Unless directed otherwise by a client in writing, PIA will vote the proxy for its clients. If the client chooses to vote their own proxy, the proxy is made available through the custodian and PIA will be happy to consult with the client about the various proxy issues. Additionally, the client may direct PIA to vote proxies in a manner the client desires.

PIA will not advise upon or conduct or participate in any litigation, such as class action litigation, on behalf of clients arising from the client’s ownership of assets held in the client’s account. For example, if an issuer defaults on a bond, PIA will not advise any client on the merits of pursuing a legal claim against the issuer and will not conduct any such claim on the client’s behalf.

A complete copy of PIA’s current Proxy Voting Policies and Procedures is available to clients upon written request. In addition, clients may obtain full information regarding how PIA has voted proxies for their account at any time by contacting PIA via phone at 310-255-4400, or by inquiring with their main contact at PIA.

## Financial Information

---

PIA has never been the subject of a bankruptcy petition and PIA is not aware of any financial condition that is reasonably likely to impair our ability to meet our contractual commitments to clients. However, should PIA at some future date, file for bankruptcy or should the principal owners decide to withdraw their capital, PIA may no longer be able to meet its contractual commitments to clients.

# Additional Disclosures

---

## Business Continuity Plan

PIA has created and implemented a Business Continuity Plan (“BCP”) to allow PIA to maintain critical business operations and recover from a significant business disruption in the event of a catastrophic emergency.

PIA has proactively planned for how to handle natural, physical, electronic and other disasters. The BCP provides for data back-up and recovery in both hard copy and electronic format as well as in remote locations. PIA is continually enhancing and developing procedural safeguards, which will allow PIA to minimize downtime in the face of a significant business disruption (“SBD”). PIA’s Business Continuity Plan is formally tested annually.

For BCP purposes, both regional and localized disruptions may occur. Regional disruptions include such issues as earthquake, flood, fire or terrorist act(s), and localized disruptions include such issues as power outage, telephone and Internet disconnections, server, and computer systems failure.

In the event of a disaster or operational disruption, all employees will go to the company Intranet for the most recent version of our Disaster Recovery (“DR”) Plan and other disaster updates.

PIA utilizes Agility Recovery Solutions, a company who will provide a mobile hotsite within 48 hours in the event of a disaster, with up to 40 employee stations.

PIA has also created and implemented a Succession Plan to enable PIA to continue to manage client assets on in the event of an unexpected death or disability of a company principal.

## Privacy Notice

The relationship between PIA and our customers is the most important asset in its business. PIA strives to maintain its clients’ trust and confidence by protecting confidential client information (including former clients) to the best of our ability. PIA is committed to protecting our clients’ (and former clients’) privacy and will not disclose personal information to anyone unless it is required by law, by the client’s direction, or is permitted by law and is necessary to provide clients with advisory services. PIA has not and will not sell personal information to any third party.

### Personal Information PIA Collects and Communicates

The primary reason PIA collects and maintains personal information is to service our clients and administer the customer relationship. The types and categories of information PIA collects about our clients may include the following:

- Information received on applications and/or other documents to provide investment advice, including the client’s name, home address, social security number, email address and telephone number;

- Information about client's net worth; and
- Information that PIA may receive from third parties.

In order for PIA to administer client accounts, we may disclose this personal information that we collect as permitted by law, to service client accounts. Examples include providing account information to companies that perform administrative services, such as printing and mailing client invoices or company newsletters. These companies must use this information solely for the services for which PIA hired them and are not permitted to use, reuse or share this information for any other purpose. PIA does not provide personal client information to affiliates for marketing purposes.

#### How PIA Protects Personal Information

To fulfill its privacy commitment, PIA has instituted practices to safeguard the information maintained about our clients. These include:

- Maintaining physical, electronic and procedural safeguards that comply with government requirements to keep personal information safe;
- Limiting access to personal information to PIA personnel who need it;
- Proper destruction and disposal of client documents;
- Taking the appropriate steps to ensure that third-parties who perform services for PIA agree to keep company and/or personal information secure and confidential; and
- Protecting the personal information of former clients to the same extent as current clients.

PIA will update its policy and procedures whenever necessary in an effort to ensure that client's privacy is maintained. If we make any material changes to our privacy policy, we will promptly make that information available to clients.

### **Anti-Money Laundering and Anti-Terrorist Policies & Procedures**

PIA takes reasonable steps to detect terrorist activities in its client accounts. Specifically PIA reviews client accounts upon opening and reports any information to the authorities necessary in order to comply with the Presidential Executive Order and the United Nations Suppression of Terrorism Regulations.

Prior to opening an account, PIA'S Anti-Money Laundering Officer, verifies client information against databases such as OFAC, FATF and FinCEN to check for potential matches. In the event that PIA has a potential hit, PIA reports its findings to the FBI and applicable financial regulators, such as the SEC. We will take any necessary action to freeze said open accounts for any persons or entities that are on the terrorist list and report the information to the relevant authorities.

In addition, at least annually, PIA provides training to our employees on our anti-money laundering and anti-terrorist policies and procedures. PIA notifies senior management and reports transactions relating to known and suspected federal crimes, including potential securities law violations.

Additional information about Lloyd McAdams is available on the SEC's website at [www.adviserinfo.sec.gov](http://www.adviserinfo.sec.gov).

**March 27, 2015**

# Lloyd McAdams, CFA, CEBS

## Education and Business Experience

Lloyd McAdams, CFA, CEBS was born in 1945. Mr. Lloyd McAdams co-founded PIA in 1986 and serves as the President and Chief Investment Officer of PIA. Mr. McAdams received his M.B.A. from University of Tennessee and his undergraduate degree from Stanford University with a major in Statistics.

## Professional Designations

### CFA

Mr. Lloyd McAdams received a Chartered Financial Analyst designation. The Chartered Financial Analyst (CFA) charter is a professional designation established in 1962 and awarded by CFA Institute. To earn the CFA charter, candidates must pass three sequential, six-hour examinations over two to four years. The three levels of the CFA Program test a wide range of investment topics, including ethical and professional standards, fixed-income analysis, alternative and derivative investments, and portfolio management and wealth planning. In addition, CFA charter holders must have at least four years of acceptable professional experience in the investment decision-making process and must commit to abide by, and annually reaffirm, their adherence to the CFA Institute Code of Ethics and Standards of Professional Conduct.

### CEBS

Mr. Lloyd McAdams received a Certified Employee Benefits Specialist designation. The Certified Employee Benefits Specialist (CEBS) designation, sponsored by International Foundation of Employee Benefit Plans and the Wharton School of the University of Pennsylvania, is an eight-course (6 required, 2 elective) curriculum that focuses on group benefits, retirement and compensation.

## Disciplinary Information

Mr. McAdams does not have disciplinary information to report.

## Other Business Activities

Since 1991, Mr. Lloyd McAdams has served as Chairman and is a registered principal and sole stockholder of Syndicated Capital, Inc. ("Syndicated Capital"), a registered broker-dealer, registered investment adviser and general insurance agency. PIA has no direct or indirect dealings with Syndicated Capital's registered investment adviser. This relationship may act as an incentive Mr. McAdams to execute transactions through Syndicated Capital even if best execution could be achieved elsewhere. Additionally, should Syndicated Capital accrue any profit or other benefit from providing custody or executing trades for PIA's clients, Lloyd McAdams will receive personal economic benefits from the revenue received by Syndicated Capital. As a result, PIA does not execute trades through Syndicated Capital, unless directed to do so by a client.

Since 1997, Mr. Lloyd McAdams has served as the Chairman, President and Chief Executive Officer of Anworth Mortgage Asset Corporation (ANH), a NYSE listed mortgage REIT. Since March 14, 2011, Mr. McAdams has served as Managing Member and Chairman, President and Chief Executive Officer of Anworth Management LLC.

Although PIA clients may own ANH securities in their portfolios, PIA does not recommend ANH securities and if owned in a PIA portfolio, PIA will not charge an investment management fee for any ANH security in the portfolio.

Both PIA and ANH invest in mortgage-backed securities (“MBS”). However, PIA believes that such ANH conflicts are mitigated in part by the fact that the MBS market is characterized by an abundance of available securities and the supply of MBSs typically targeted by ANH and PIA client accounts, is rarely insufficient. However, in the unlikely event that there is an insufficient supply to satisfy the competing demands of ANH and PIA’s clients, dual employees are required to attempt to mitigate such conflicts by determining whether the investment in question is more suitable for ANH or PIA clients based on their respective investment strategies and guidelines relating to acquisition of assets, leverage, liquidity and other factors that such dual employees determine to be appropriate. Dual employees may give advice and take action with respect to ANH’s account that may differ from advice given or the timing or nature of action taken with respect to any PIA client account. PIA makes available copies of the latest annual report of ANH to all PIA clients upon written request. For more information on PIA’s association with ANH see the *Other Financial Industry Activities and Affiliations* section of this brochure.

Mr. McAdams devotes a portion of his time to ANH in capacities that could create conflicts of interest that may harm PIA’s investment opportunities; this lack of a full-time commitment could also harm PIA’s operating results. Although Mr. Lloyd McAdams is under no contractual obligation to devote any minimum amount of his time to PIA, he has defined roles and responsibilities that must be fulfilled.

### **Additional Compensation**

Mr. Lloyd McAdams receives annual compensation for his roles at both Syndicated Capital and Anworth Management LLC.

### **Supervision**

As President and Chief Investment Officer of PIA, Mr. Lloyd McAdams is not directly supervised. However, he does report to the Board of Directors for overall supervision.

**March 27, 2015**

# Thad M. Brown, CPA, CFP®, IACCP®

## Education and Business Experience

Thad Brown was born in 1950. Mr. Brown joined PIA in 2002 and serves as the Managing Director, Chief Operating Officer, Chief Compliance Officer, Corporate Secretary and Corporate Treasurer. Mr. Brown studied Business Management and Finance at Metropolitan State College of Denver, graduating magna cum laude and completed a Master's Degree in Tax Law from the University of Denver.

## Professional Designations

### CPA

Mr. Brown received a Certified Public Accountant designation. CPAs are licensed and regulated by their state boards of accountancy. While state laws and regulations vary, the education, experience and testing requirements for licensure as a CPA generally include minimum college education (typically 150 credit hours with at least a baccalaureate degree and a concentration in accounting), minimum experience levels (most states require at least one year of experience providing services that involve the use of accounting, attest, compilation, management advisory, financial advisory, tax or consulting skills, all of which must be achieved under the supervision of or verification by a CPA), and successful passage of the Uniform CPA Examination. In order to maintain a CPA license, states generally require the completion of 40 hours of continuing professional education (CPE) each year (or 80 hours over a two year period or 120 hours over a three year period). Additionally, all American Institute of Certified Public Accountants (AICPA) members are required to follow a rigorous Code of Professional Conduct which requires that they act with integrity, objectivity, due care, competence, fully disclose any conflicts of interest (and obtain client consent if a conflict exists), maintain client confidentiality, disclose to the client any commission or referral fees, and serve the public interest when providing financial services. The vast majority of state boards of accountancy have adopted the AICPA's Code of Professional Conduct within their state accountancy laws or have created their own.

### CFP

Mr. Brown received a Certified Financial Planner designation. The Certified Financial Planner™, CFP® marks are professional certification marks granted in the United States by Certified Financial Planner Board of Standards, Inc. ("CFP Board").

To attain the right to use the CFP® marks, an individual must satisfactorily fulfill the following requirements:

- Education – Complete an advanced college-level course of study addressing the financial planning subject areas that CFP Board's studies have determined as necessary for the competent and professional delivery of financial planning services, and attain a Bachelor's Degree from a regionally accredited United States college or university (or its equivalent from a foreign university). CFP Board's financial planning subject areas include insurance planning and risk

management, employee benefits planning, investment planning, income tax planning, retirement planning, and estate planning;

- Examination – Pass the comprehensive CFP® Certification Examination. The examination, administered in 10 hours over a two-day period, includes case studies and client scenarios designed to test one’s ability to correctly diagnose financial planning issues and apply one’s knowledge of financial planning to real world circumstances;
- Experience – Complete at least three years of full-time financial planning-related experience (or the equivalent, measured as 2,000 hours per year); and
- Ethics – Agree to be bound by CFP Board’s Standards of Professional Conduct, a set of documents outlining the ethical and practice standards for CFP® professionals.

Individuals who become certified must complete ongoing education and ethics requirements in order to maintain the right to continue to use the CFP® marks.

### IACCP

Mr. Brown received an Investment Adviser Certified Compliance Professional designation. The Investment Adviser Compliance Certificate Program is a professional education program, created by the National Regulatory Services, granting a certified designation, Investment Adviser Certified Compliance Professional (IACCP), to individuals who complete certain requirements. This certification:

- signals recognition of an advanced knowledge and skill level, and clarifies competency requirements;
- provides essential face-to-face training combined with the convenience of instructor-led online training
- provides a blended learning experience that produces a highly effective new breed of compliance professionals; and
- allows firms that train compliance personnel to add another cost- and time-effective risk management tool.

## **Disciplinary Information**

Mr. Brown does not have disciplinary information to report.

## **Other Business Activities**

Since 2002, Mr. Brown has served as Chief Financial Officer, Corporate Secretary and Corporate Treasurer of Anworth Mortgage Asset Corporation (ANH), a NYSE listed mortgage REIT. Since March 14, 2011, Mr. Brown has served as a Member and Chief Financial Officer, Corporate Secretary and Corporate Treasurer of Anworth Management LLC.

Although PIA clients may own ANH securities in their portfolios, PIA does not recommend ANH securities and if owned in a PIA portfolio, PIA will not charge an investment management fee for any ANH security in the portfolio.

Both PIA and ANH invest in mortgage-backed securities (“MBS”). However, PIA believes that such ANH conflicts are mitigated in part by the fact that the MBS market is characterized by an abundance of

available securities and the supply of MBSs typically targeted by ANH and PIA client accounts, is rarely insufficient. However, in the unlikely event that there is an insufficient supply to satisfy the competing demands of ANH and PIA's clients, dual employees are required to attempt to mitigate such conflicts by determining whether the investment in question is more suitable for ANH or PIA clients based on their respective investment strategies and guidelines relating to acquisition of assets, leverage, liquidity and other factors that such dual employees determine to be appropriate. Dual employees may give advice and take action with respect to ANH's account that may differ from advice given or the timing or nature of action taken with respect to any PIA client account. PIA makes available copies of the latest annual report of ANH to all PIA clients upon written request. For more information on PIA's association with ANH see the *Other Financial Industry Activities and Affiliations* section of this brochure.

Mr. Brown devotes a portion of his time to ANH in capacities that could create conflicts of interest that may harm PIA's investment opportunities; this lack of a full-time commitment could also harm PIA's operating results. Although Mr. Brown is under no contractual obligation to devote any minimum amount of his time to PIA, he has defined roles and responsibilities that must be fulfilled in order to continue employment with the adviser.

### **Additional Compensation**

Mr. Brown receives annual compensation for his roles at Anworth Management LLC.

### **Supervision**

Mr. Brown reports to Heather U. Baines and Lloyd McAdams formally at scheduled Board of Directors meetings, to the Management Group at management meetings and informally as required to discuss various business aspects of the position responsibilities.

# Evangelos Karagiannis, Ph.D., CFA

## Education and Business Experience

Evangelos Karagiannis was born in 1962. Mr. Karagiannis joined PIA in 1992 and serves as a Managing Director and Portfolio Manager. Mr. Karagiannis earned a Bachelor of Science in Physics from the University of Athens, Greece; and M.S., Ph.D. from the University of California at Los Angeles.

## Professional Designations

Mr. Karagiannis received a Chartered Financial Analyst designation. The Chartered Financial Analyst (CFA) charter is a professional designation established in 1962 and awarded by CFA Institute. To earn the CFA charter, candidates must pass three sequential, six-hour examinations over two to four years. The three levels of the CFA Program test a wide range of investment topics, including ethical and professional standards, fixed-income analysis, alternative and derivative investments, and portfolio management and wealth planning. In addition, CFA charter holders must have at least four years of acceptable professional experience in the investment decision-making process and must commit to abide by, and annually reaffirm, their adherence to the CFA Institute Code of Ethics and Standards of Professional Conduct.

## Disciplinary Information

Mr. Karagiannis does not have disciplinary information to report.

## Other Business Activities

Since January 1, 2012, Mr. Karagiannis has been an employee of Anworth Management LLC.

Although PIA clients may own ANH securities in their portfolios, PIA does not recommend ANH securities and if owned in a PIA portfolio, PIA will not charge an investment management fee for any ANH security in the portfolio.

Both PIA and ANH invest in mortgage-backed securities (“MBS”). However, PIA believes that such ANH conflicts are mitigated in part by the fact that the MBS market is characterized by an abundance of available securities and the supply of MBSs typically targeted by ANH and PIA client accounts, is rarely insufficient. However, in the unlikely event that there is an insufficient supply to satisfy the competing demands of ANH and PIA’s clients, dual employees are required to attempt to mitigate such conflicts by determining whether the investment in question is more suitable for ANH or PIA clients based on their respective investment strategies and guidelines relating to acquisition of assets, leverage, liquidity and other factors that such dual employees determine to be appropriate. Dual employees may give advice and take action with respect to ANH’s account that may differ from advice given or the timing or nature of action taken with respect to any PIA client account. PIA makes available copies of the latest annual report of ANH to all PIA clients upon written request. For more information on PIA’s association with ANH see the *Other Financial Industry Activities and Affiliations* section of this brochure.

Mr. Karagiannis devotes a portion of his time to ANH in capacities that could create conflicts of interest that may harm PIA's investment opportunities; this lack of a full-time commitment could also harm PIA's operating results. Although Mr. Karagiannis is under no contractual obligation to devote any minimum amount of his time to PIA, he has defined roles and responsibilities, that must be fulfilled in order to continue employment with the adviser.

### **Additional Compensation**

Mr. Karagiannis receives annual compensation for his role at Anworth Management LLC.

### **Supervision**

Mr. Karagiannis reports to Lloyd McAdams formally at scheduled Board of Directors meetings, to the Management Group at management meetings and informally as required to discuss various business aspects of the position responsibilities.
