Core Plus Composite consists of portfolios benchmarked to the Barclays U.S. Aggregate Bond Index and is constructed from all major fixed income sectors. Portfolios managed in this style seek to maximize total return and allow the use of non-investment grade securities as well as other non-benchmark sectors. The composite will tactically invest in sectors outside the index (typically ranging from 10% - 40%) and hold more concentrated positions to enhance returns and diversify risk. The minimum account size for the composite is \$1MM.
