

PIA Short-Term Securities Fund

Dear Shareholder:

We are pleased to provide you with this annual report for the fiscal year from December 1, 2017 through November 30, 2018, regarding the PIA Short-Term Securities Fund (the “Fund”) for which Pacific Income Advisers, Inc. (“PIA”) is the investment adviser.

For the fiscal year ended November 30, 2018, the total return for the Fund, including the reinvestment of dividends and capital gains, was 1.23%.

The Fund’s return was lower than the Fund’s benchmark index, the ICE BofA Merrill Lynch 1-Year U.S. Treasury Note Index, which returned 1.53% for the same period. The Fund’s total return is net of 0.39% in Fund fees and expenses for the year ended November 30, 2018, compared to the benchmark index, which does not incur fees and expenses. As stated in the most recently filed prospectus, the Fund’s gross expense ratio is 0.41% and the Fund’s net expense ratio is 0.39%.

PIA has contractually agreed to waive all or a portion of its management fees and pay Fund expenses to ensure that the Total Annual Fund Operating Expenses After Fee Waiver (excluding acquired fund fees and expenses (“AFFE”), interest, taxes and extraordinary expenses) do not exceed 0.39% of the Fund’s average daily net assets through at least March 29, 2019. The Net Expense is what the investor has paid.

The Fund’s investment objective is to seek a high level of current income, consistent with low volatility of principal through investing in short-term investment grade debt securities.

During the fiscal year ended November 30, 2018, the Fund had a shorter duration position and a more barbelled structure, relative to the Fund’s benchmark index. The underperformance during the period was attributable to the yield curve steepening which occurred early in 2018 when the Fund owned a higher percentage of fixed rate investment grade corporate bonds with durations in excess of the Fund benchmark. The Fund had a diversified allocation to fixed-rate and floating-rate investment grade corporate bonds, with maturities less than three years. The Fund was overweighted in floating rate government mortgage-backed securities, which provided the portfolio with a more defensive positioning as short-term interest rates increased.

Bond Market in Review

The gross domestic product’s (“GDP”) quarter-over-quarter rate of growth was 3.4% for the third quarter of 2018, lower than the 4.2% during the second quarter of 2018. With the unemployment rate at 3.9% and inflation under control, the U.S. Federal Reserve Board (the “Fed”) tightened monetary policy. Inflation, as measured by the Consumer Price Index, was 2.2% year-over-year as of November 2018.

Yields on 2-year Treasury notes, 5-year Treasury bonds and 30-year Treasury bonds rose by 100, 68 and 46 basis points (“bps”), respectively, from November 30, 2017 to November 30, 2018. The expectations that the Fed will continue increasing short-term rates, inflation remaining under control, volatility in oil prices and the strengthening of the U.S. dollar, all contributed to the flattening of the yield curve.

Spreads on BBB-rated bonds over Treasuries increased during the period from 128 bps to 177 bps. Option adjusted spreads on fixed rate agency MBS rose from 24 bps to 35 bps, as their average life increased from 7.0 years to 7.8 years.

PIA Short-Term Securities Fund

Please take a moment to review the Fund's statement of assets and liabilities and the results of operations for the fiscal year ended November 30, 2018. We look forward to reporting to you again with the semi-annual report dated May 31, 2019.

Lloyd McAdams
President and Portfolio Manager
Pacific Income Advisers, Inc.

Past performance is not a guarantee of future results.

Opinions expressed above are those of Pacific Income Advisers, Inc., the Fund's investment adviser and are subject to change, are not guaranteed and should not be considered recommendations to buy or sell any security.

Must be preceded or accompanied by a prospectus.

Mutual fund investing involves risk. Principal loss is possible. Investments in debt securities typically decrease in value when interest rates rise. This risk is usually greater for longer-term debt securities. Investments in asset-backed and mortgage-backed securities include additional risks that investors should be aware of such as credit risk, prepayment risk, possible illiquidity and default, as well as increased susceptibility to adverse economic developments. The Fund may invest in derivatives, which may involve risks greater than the risks presented by more traditional investments. The risk of owning an ETF or mutual fund generally reflects the risks of owning the underlying securities that the ETF or mutual fund holds. It will also bear additional expenses, including operating expenses, brokerage costs and the potential duplication of management fees.

Diversification does not assure a profit or protect against risk in a declining market.

The ICE BofA Merrill Lynch 1-Year U.S. Treasury Note Index (the "Index") is an unmanaged index presented for comparative purposes only. The Index is comprised of a single U.S. Treasury issue with approximately one year to final maturity purchased at the beginning of each month and held for one full month. At the end of the month, that issue is sold and rolled into a newly selected issue.

You cannot invest directly in an index.

Gross domestic product is the amount of goods and services produced in a year, in a country.

Consumer Price Index measures the weighted average of prices of a basket of consumer goods and services, such as transportation, food and medical care.

Duration is the measure of the sensitivity of the price of a fixed income security to a change in interest rates, expressed in number of years.

Basis point equals 1/100th of 1%.

A yield curve is a curve that shows several yields or interest rates over different lengths of time for a similar debt security.

Spread is the difference in yield between a corporate bond and a similar maturity U.S. Treasury bond. It is the compensation investors receive for accepting credit risk of a corporate bond.

Bond ratings provide the probability of an issuer defaulting based on the analysis of the issuer's financial condition and profit potential. Bond rating services are provided by Standard & Poor's Ratings Services, Moody's Investors Service, Inc., and Fitch Ratings, Inc. Bond ratings start at AAA (denoting the highest investment quality) and usually end at D (meaning payment is in default). In limited situations when the rating agency has not issued a formal rating, the investment adviser will classify the security as non-rated.

Please refer to the schedule of investments in the report for complete holdings information. Fund holdings and sector allocations are subject to change at any time and are not recommendations to buy or sell any security. Investment performance reflects fee waivers in effect. In the absence of such waivers, total return would be reduced.

Quasar Distributors, LLC, Distributor

PIA Short-Term Securities Fund

Average Annual Total Return*

	<u>1 Year</u>	<u>5 Years</u>	<u>10 Years</u>
PIA Short-Term Securities Fund	1.23%	0.82%	0.85%
ICE BofA Merrill Lynch 1-Year U.S. Treasury Note Index	1.53%	0.63%	0.63%

Performance data quoted represents past performance; past performance does not guarantee future results. The investment return and principal value of an investment will fluctuate so that an investor's shares, when redeemed, may be worth more or less than their original cost. Current performance of the Fund may be lower or higher than the performance quoted. Performance data current to the most recent month end may be obtained by calling 1-800-251-1970.

This chart illustrates the performance of a hypothetical \$10,000 investment made in the Fund ten years ago. Returns reflect the reinvestment of dividends and capital gain distributions. Fee waivers are in effect. In the absence of fee waivers, returns would be reduced. The performance data and graph do not reflect the deduction of taxes that a shareholder may pay on dividends, capital gain distributions, or redemption of Fund shares. This chart does not imply any future performance.

The ICE BofA Merrill Lynch 1-Year U.S. Treasury Note Index is an unmanaged index consisting of a single U.S. Treasury issue with approximately one year to final maturity purchased at the beginning of each month and held for one full month. At the end of the month, that issue is sold and rolled into a newly selected issue.

Indices do not incur expenses and are not available for investment.

* Average Annual Total Return represents the average change in account value over the periods indicated.

PIA Short-Term Securities Fund

Expense Example – November 30, 2018

(Unaudited)

As a shareholder of a mutual fund, you incur two types of costs: (1) transaction costs, including sales charges (loads) on purchase payments, redemption fees, and exchange fees, and (2) ongoing costs, including management fees, distribution and/or service fees, and other fund expenses. This Example is intended to help you understand your ongoing costs (in dollars) of investing in the PIA Short-Term Securities Fund and to compare these costs with the ongoing costs of investing in other mutual funds. The Example is based on an investment of \$1,000 invested at the beginning of the period and held for the entire period (6/1/18 – 11/30/18).

Actual Expenses

The first line of the table below provides information about actual account values and actual expenses, with actual net expenses being limited to 0.39% per the operating expenses limitation agreement. Although the Fund charges no sales loads or transaction fees, you will be assessed fees for outgoing wire transfers, returned checks, and stop payment orders at prevailing rates charged by U.S. Bancorp Fund Services, LLC, the Fund's transfer agent. The Example below includes, but is not limited to, management fees, fund accounting, custody and transfer agent fees. You may use the information in the first line, together with the amount you invested, to estimate the expenses that you paid over the period. Simply divide your account value by \$1,000 (for example, an \$8,600 account value divided by \$1,000 = 8.6), then multiply the result by the number in the first line under the heading entitled "Expenses Paid During Period" to estimate the expenses you paid on your account during this period.

Hypothetical Example for Comparison Purposes

The second line of the table below provides information about hypothetical account values and hypothetical expenses based on the Fund's actual expense ratio and an assumed rate of return of 5% per year before expenses, which is different from the Fund's actual returns. The hypothetical account values and expenses may not be used to estimate the actual ending account balance or expenses you paid for the period. You may use this information to compare the ongoing costs of investing in the Fund and other funds. To do so, compare this 5% hypothetical example with the 5% hypothetical examples that appear in the shareholder reports of the other funds. Please note that the expenses shown in the table are meant to highlight your ongoing costs only and do not reflect any transaction costs, such as sales charges (loads), redemption fees, or exchange fees. Therefore, the second line of the table is useful in comparing ongoing costs only, and will not help you determine the relative total costs of owning different funds. In addition, if these transaction costs were included, your costs would have been higher.

	Beginning Account Value 6/1/18	Ending Account Value 11/30/18	Expenses Paid During Period 6/1/18 – 11/30/18*
Actual	\$1,000.00	\$1,008.30	\$1.96
Hypothetical (5% return before expenses)	\$1,000.00	\$1,023.11	\$1.98

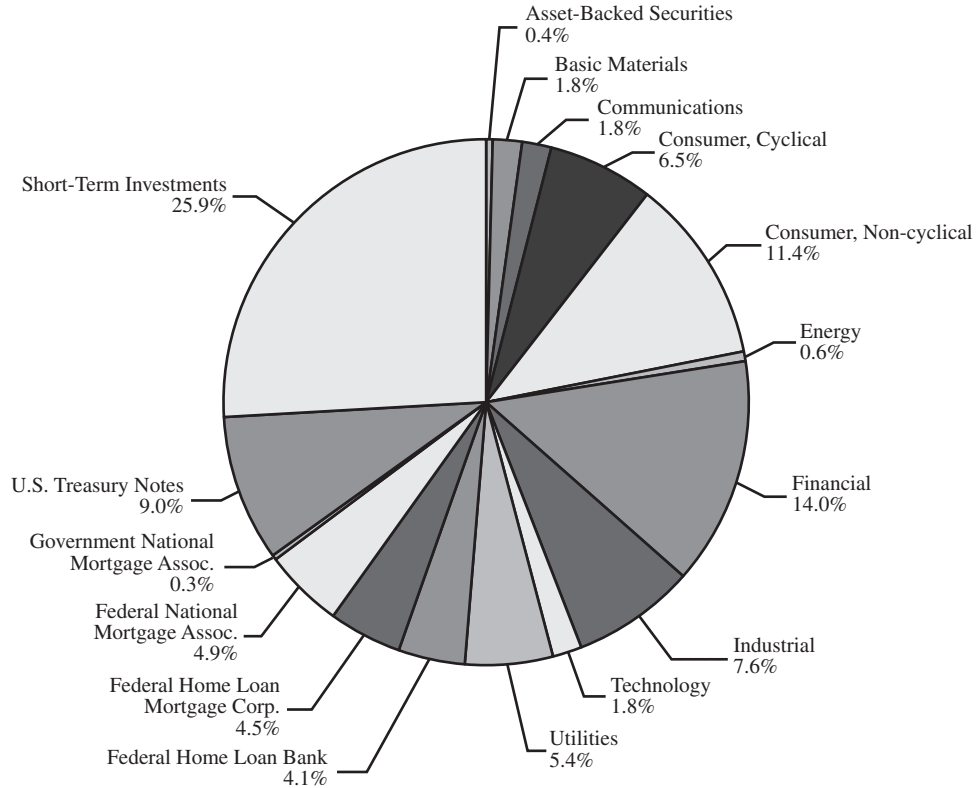

* Expenses are equal to the Fund's annualized expense ratio, multiplied by the average account value over the period, multiplied by 183 (days in most recent fiscal half-year) / 365 days to reflect the one-half year expense. The annualized expense ratio of the Fund is 0.39%.

PIA Short-Term Securities Fund

Notes to Financial Statements – November 30, 2018

Note 1 – Organization

The PIA Short-Term Securities Fund (the “Fund”) is a diversified series of Advisors Series Trust (the “Trust”), which is registered under the Investment Company Act of 1940, as amended, as an open-end management investment company. The Fund is an investment company and accordingly follows the investment company accounting and reporting guidance of the Financial Accounting Standards Board (“FASB”) Accounting Standard Codification Topic 946 “Financial Services – Investment Companies.”

The investment objective of the Fund is to seek a high level of current income, consistent with low volatility of principal through investing in short-term investment grade debt securities. The Fund commenced operations on April 22, 1994.

Note 2 – Significant Accounting Policies

The following is a summary of significant accounting policies consistently followed by the Fund in the preparation of its financial statements. These policies are in conformity with accounting principles generally accepted in the United States of America.

Security Valuation – All investments in securities are recorded at their estimated fair value, as described in Note 3.

Securities Purchased on a When-Issued Basis – Delivery and payment for securities that have been purchased by the Fund on a forward-commitment or when-issued basis can take place up to a month or more after the transaction date. During this period, such securities are subject to market fluctuations. The Fund is required to hold and maintain until the settlement date, cash or other liquid assets in an amount sufficient to meet the purchase price. The purchase of securities on a when-issued or forward-commitment basis may increase the volatility of the Fund’s net asset value if the Fund makes such purchases while remaining substantially fully invested. In connection with the ability to purchase securities on a when-issued basis, the Fund may also enter into dollar rolls in which the Fund sells securities purchased on a forward-commitment basis and simultaneously contracts with a counterparty to repurchase similar (same type, coupon, and maturity), but not identical securities on a specified future date. As an inducement for the Fund to “roll over” its purchase commitments, the Fund receives negotiated amounts in the form of reductions of the purchase price of the commitment. Dollar rolls are considered a form of leverage.

Federal Income Taxes – It is the Fund’s policy to comply with the requirements of Subchapter M of the Internal Revenue Code applicable to regulated investment companies and to distribute substantially all of its taxable income to its shareholders. Therefore, no Federal income or excise tax provision is required.

The Fund recognizes the tax benefits of uncertain tax positions only where the position is “more likely than not” to be sustained assuming examination by tax authorities. Management has analyzed the Fund’s tax positions, and has concluded that no liability for unrecognized tax benefits should be recorded related to uncertain tax positions taken on returns filed for open tax years 2015 – 2017, or expected to be taken in the Fund’s 2018 tax returns. The Fund identifies its major tax jurisdictions as U.S. Federal and the state of Wisconsin; however the Fund is not aware of any tax positions for which it is reasonably possible that the total amounts of unrecognized tax benefits will change materially in the next twelve months.

Expenses – The Fund is charged for those expenses that are directly attributable to the Fund, such as investment advisory and custodian fees. Expenses that are not directly attributable to the Fund are typically allocated among the PIA Funds in proportion to their respective net assets. Common expenses of the Trust are typically allocated among the funds in the Trust based on a fund’s respective net assets, or by other equitable means.

PIA Short-Term Securities Fund

Notes to Financial Statements – November 30, 2018 (continued)

Securities Transactions and Investment Income – Security transactions are accounted for on a trade date basis. Realized gains and losses on sales of securities are calculated on the basis of identified cost. Interest income is recorded on an accrual basis. Discounts and premiums on securities purchased are amortized over the life of the respective security using the effective interest method. Paydown gains and losses on mortgage-related and other asset-backed securities are recorded as components of interest income on the Statement of Operations.

Distributions to Shareholders – Distributions to shareholders are recorded on the ex-dividend date. The Fund distributes substantially all net investment income, if any, monthly and net realized gains, if any, annually. All short-term capital gains are included in ordinary income for tax purposes.

Reclassification of Capital Accounts – Accounting principles generally accepted in the United States of America require that certain components of net assets relating to permanent differences be reclassified between financial and tax reporting. These reclassifications have no effect on net assets or net asset value per share.

For the year ended November 30, 2018, the Funds made the following permanent tax adjustments on the statements of assets and liabilities:

<u>Distributable Earnings</u>	<u>Paid-in Capital</u>
\$56,182	\$(56,182)

Guarantees and Indemnifications – In the normal course of business, the Fund enters into contracts with service providers that contain general indemnification clauses. The Fund’s maximum exposure under these arrangements is unknown as this would involve future claims against the Fund that have not yet occurred. Based on experience, the Fund expects the risk of loss to be remote.

Use of Estimates – The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of increases and decreases in net assets from operation during the reporting period. Actual results could differ from those estimates.

New Accounting Pronouncements – In March 2017, FASB issued Accounting Standards Update (“ASU”) No. 2017-08, Receivables — Nonrefundable Fees and Other Costs (Subtopic 310-20): Premium Amortization on Purchased Callable Debt Securities. The amendments in the ASU shorten the amortization period for certain callable debt securities, held at a premium, to be amortized to the earliest call date. The ASU does not require an accounting change for securities held at a discount; which continue to be amortized to maturity. The ASU is effective for fiscal years and interim periods within those fiscal years beginning after December 15, 2018. Management is currently evaluating the impact, if any, of applying this provision.

Events Subsequent to the Fiscal Year End – In preparing the financial statements as of November 30, 2018, management considered the impact of subsequent events for the potential recognition or disclosure in these financial statements. Refer to Note 9 for more information about subsequent events.

PIA Short-Term Securities Fund

Notes to Financial Statements – November 30, 2018 (continued)

Note 3 – Securities Valuation

The Fund has adopted authoritative fair value accounting standards which establish an authoritative definition of fair value and set out a hierarchy for measuring fair value. These standards require additional disclosures about the various inputs and valuation techniques used to develop the measurements of fair value, a discussion in changes in valuation techniques and related inputs during the period and expanded disclosure of valuation levels for major security types. These inputs are summarized in the three broad levels listed below:

- Level 1 – Unadjusted quoted prices in active markets for identical assets or liabilities that the Fund has the ability to access.
- Level 2 – Observable inputs other than quoted prices included in level 1 that are observable for the asset or liability, either directly or indirectly. These inputs may include quoted prices for the identical instrument on an inactive market, prices for similar instruments, interest rates, prepayment speeds, credit risk, yield curves, default rates and similar data.
- Level 3 – Unobservable inputs for the asset or liability, to the extent relevant observable inputs are not available, representing the Fund's own assumptions about the assumptions a market participant would use in valuing the asset or liability, and would be based on the best information available.

Following is a description of the valuation techniques applied to the Fund's major categories of assets and liabilities measured at fair value on a recurring basis. The Fund's investments are carried at fair value.

The Fund determines the fair value of its investments and computes its net asset value per share as of the close of regular trading on the New York Stock Exchange (4:00 pm EST).

Corporate Bonds – Corporate bonds, including listed issues, are valued at market on the basis of valuations furnished by an independent pricing service which utilizes both dealer-supplied valuations and formula-based techniques. The pricing service may consider recently executed transactions in securities of the issuer or comparable issuers, market price quotations (where observable), bond spreads, and fundamental data relating to the issuer. Most corporate bonds are categorized in level 2 of the fair value hierarchy.

Foreign Securities – Foreign economies may differ from the U.S. economy and individual foreign companies may differ from domestic companies in the same industry.

Foreign companies or entities are frequently not subject to accounting and financial reporting standards applicable to domestic companies, and there may be less information available about foreign issuers. Securities of foreign issuers are generally less liquid and more volatile than those of comparable domestic issuers. There is frequently less government regulation of broker-dealers and issuers than in the United States. In addition, investments in foreign countries are subject to the possibility of expropriation, confiscatory taxation, political or social instability or diplomatic developments that could adversely affect the value of those investments.

Mortgage- and Asset-Backed Securities – Mortgage- and asset-backed securities are securities issued as separate tranches, or classes, of securities within each deal. These securities are normally valued by pricing service providers that use broker-dealer quotations or valuation estimates from their internal pricing models. The pricing models for these

PIA Short-Term Securities Fund

Notes to Financial Statements – November 30, 2018 (continued)

securities usually consider tranche-level attributes, estimated cash flows and market-based yield spreads for each tranche, current market data and incorporate deal collateral performance, as available. Mortgage- and asset-backed securities that use similar valuation techniques and inputs as described above are typically categorized as level 2 of the fair value hierarchy.

U.S. Government Securities – U.S. Government securities are normally valued using a model that incorporates market observable data such as reported sales of similar securities, broker quotes, yields, bids, offers, and reference data. Certain securities are valued principally using dealer quotations. U.S. Government securities are typically categorized in level 2 of the fair value hierarchy.

U.S. Government Agency Securities – U.S. Government agency securities are comprised of two main categories consisting of agency issued debt and mortgage pass-throughs. Agency issued debt securities are generally valued in a manner similar to U.S. Government securities. Mortgage pass-throughs include to-be-announced (“TBAs”) securities and mortgage pass-through certificates. TBA securities and mortgage pass-throughs are generally valued using dealer quotations. These securities are typically categorized in level 2 of the fair value hierarchy.

Investment Companies – Investments in open-end mutual funds are valued at their net asset value per share. To the extent, these securities are actively traded and valuation adjustments are not applied, they are categorized in level 1 of the fair value hierarchy.

Short-Term Securities – Short-term debt securities, including those securities having a maturity of 60 days or less, are valued at the evaluated mean between the bid and asked prices. To the extent the inputs are observable and timely, these securities would be classified in level 2 of the fair value hierarchy.

Illiquid Securities – A security may be considered illiquid if it lacks a readily available market. Securities are generally considered liquid if they can be sold or disposed of in the ordinary course of business within seven days at approximately the price at which the security is valued by the Fund. Illiquid securities may be valued under methods approved by the Fund’s Board of Trustees as reflecting fair value. The Fund intends to hold no more than 15% of its net assets in illiquid securities.

Certain restricted securities may be considered illiquid. Restricted securities are often purchased in private placement transactions, are not registered under the Securities Act of 1933, may have contractual restrictions on resale, and may be valued under methods approved by the Fund’s Board of Trustees as reflecting fair value. Certain restricted securities eligible for resale to qualified institutional investors, including Rule 144A securities, are not subject to the limitation on the Fund’s investment in illiquid securities if they are determined to be liquid in accordance with procedures adopted by the Fund’s Board of Trustees. As of November 30, 2018, Pacific Income Advisers, Inc., the adviser, has determined that the Rule 144A securities held by the Fund are considered liquid.

The Board of Trustees has delegated day-to-day valuation issues to a Valuation Committee of the Trust which is comprised of representatives from U.S. Bancorp Fund Services, LLC, the Fund’s administrator. The function of the Valuation Committee is to value securities where current and reliable market quotations are not readily available or the closing price does not represent fair value by following procedures approved by the Board of Trustees. These procedures consider many factors, including the type of security, size of holding, trading volume and news events. All actions taken by the Valuation Committee are subsequently reviewed and ratified by the Board of Trustees.

PIA Short-Term Securities Fund

Notes to Financial Statements – November 30, 2018 (continued)

Depending on the relative significance of the valuation inputs, fair valued securities may be classified in either level 2 or level 3 of the fair value hierarchy.

The inputs or methodology used for valuing securities are not an indication of the risk associated with investing in those securities. The following is a summary of the inputs used to value the Fund's securities as of November 30, 2018:

	Level 1	Level 2	Level 3	Total
Fixed Income				
Corporate Bonds	\$ —	\$ 85,635,863	\$ —	\$ 85,635,863
Asset-Backed Securities	—	—	633,318	633,318
Mortgage-Backed Securities	—	4,359,798	—	4,359,798
U.S. Government Agencies and Instrumentalities	—	34,041,579	—	34,041,579
Total Fixed Income	—	124,037,240	633,318	124,670,558
Short-Term Investments	4,587,222	38,951,591	—	43,538,813
Total Investments	\$4,587,222	\$162,988,831	\$633,318	\$168,209,371

Refer to the Fund's schedule of investments for a detailed break-out of securities. Transfers between levels are recognized at November 30, 2018, the end of the reporting period. The Fund recognized no transfers to/from level 1 or level 2.

The following is a reconciliation of the Fund's level 3 investments for which significant unobservable inputs were used in determining value.

	Investments in Securities, at Value Mortgage-Backed Securities
Balance as of November 30, 2017	\$ 1,892,579
Accrued discounts/premiums	—
Realized gain/(loss)	5,627
Change in unrealized appreciation/(depreciation)	(10,685)
Purchases	—
Sales	(1,254,203)
Transfers in and/or out of Level 3	—
Balance as of November 30, 2018	\$ 633,318

The change in unrealized appreciation/(depreciation) for level 3 securities still held at November 30, 2018, and still classified as level 3 was \$(10,685). At November 30, 2018, the Fund's primary pricing service provided a valuation for the BlueVirgo Trust bond based on a single broker quote. Due to a lack of significant observable inputs, the value of the BlueVirgo Trust bond is classified in level 3.

PIA Short-Term Securities Fund

Notes to Financial Statements – November 30, 2018 (continued)

In August 2018, the FASB issued Accounting Standard Update (“ASU”) 2018-13, *Fair Value Measurement* (Topic 820): *Disclosure Framework—Changes to the Disclosure Requirements for Fair Value Measurement* (“ASU 2018-13”). The primary focus of ASU 2018-13 is to improve the effectiveness of the disclosure requirements for fair value measurements. The changes affect all companies that are required to include fair value measurement disclosures. In general, the amendments in ASU 2018-13 are effective for all entities for fiscal years and interim periods within those fiscal years, beginning after December 15, 2019. An entity is permitted to early adopt the removed or modified disclosures upon the issuance of ASU 2018-13 and may delay adoption of the additional disclosures, which are required for public companies only, until their effective date. Management is currently evaluating the impact these changes will have on the Fund’s financial statements and disclosures.

Note 4 – Investment Advisory Fee and other Transactions with Affiliates

The Fund has an investment advisory agreement with Pacific Income Advisers, Inc. (“PIA” or the “Adviser”) pursuant to which the Adviser is responsible for providing investment management services to the Fund. The Adviser furnished all investment advice, office space and facilities, and provides most of the personnel needed by the Fund. As compensation for its services, PIA is entitled to a fee, computed daily and payable monthly. The Fund pays fees calculated at an annual rate of 0.20% based upon the average daily net assets of the Fund. For the year ended November 30, 2018, the Fund incurred \$339,750 in advisory fees.

The Fund is responsible for its own operating expenses. The Adviser has contractually agreed to reduce fees payable to it by the Fund and to pay Fund operating expenses to the extent necessary to limit the Fund’s aggregate annual operating expenses to 0.39% of average daily net assets. Any such reduction made by the Adviser in its fees or payment of expenses which are the Fund’s obligation are subject to reimbursement by the Fund to the Adviser, if so requested by the Adviser, in any subsequent month in the three year period from the date of the management fee reduction and expense payment if the aggregate amount actually paid by the Fund toward the operating expenses for such fiscal year (taking into account the reimbursement) will not cause the Fund to exceed the lesser of: (1) the expense limitation in place at the time of the management fee reduction and expense payment; or (2) the expense limitation in place at the time of the reimbursement. Any such reimbursement is also contingent upon Board of Trustees review and approval at the time the reimbursement is made. Such reimbursement may not be paid prior to the Fund’s payment of current ordinary operating expenses. For the year ended November 30, 2018, the Adviser reduced its fees and/or absorbed Fund expenses in the amount of \$51,909. No amounts were reimbursed to the Adviser. Cumulative expenses subject to recapture pursuant to the aforementioned conditions amounted to \$106,070 at November 30, 2018. The expense limitation will remain in effect through at least March 29, 2019, and may be terminated only by the Trust’s Board of Trustees. Cumulative expenses subject to recapture expire as follows:

<u>Expiration</u>	<u>Amount</u>
11/30/19	\$ 26,651
11/30/20	27,510
Dec. 2020 – Nov. 2021	51,909
	<u>\$106,070</u>

PIA Short-Term Securities Fund

Notes to Financial Statements – November 30, 2018 (continued)

U.S. Bancorp Fund Services, LLC (“Fund Services” or the “Administrator”), doing business as U.S. Bank Global Fund Services, serves as the Fund’s administrator, fund accountant and transfer agent. In those capacities Fund Services maintains the Fund’s books and records, calculates the Fund’s NAV, prepares various federal and state regulatory filings, coordinates the payment of fund expenses, reviews expense accruals and prepares materials supplied to the Board of Trustees. The officers of the Trust and the Chief Compliance Officer are also employees of Fund Services.

Quasar Distributors, LLC (the “Distributor”) acts as the Fund’s principal underwriter in a continuous public offering of the Fund’s shares. U.S. Bank N.A. serves as custodian (the “Custodian”) to the Fund. Both the Distributor and Custodian are affiliates of the Administrator.

For the year ended November 30, 2018, the Fund incurred the following expenses for administration, fund accounting, transfer agency, custody, and Chief Compliance Officer fees:

Administration	\$47,509
Fund Accounting	89,789
Transfer Agency	
(excludes out-of-pocket expenses and sub-ta fees)	62,852
Custody	19,498
Chief Compliance Officer	9,050

At November 30, 2018, the Fund had payables due to Fund Services for administration, fund accounting, transfer agency and Chief Compliance Officer fees and to U.S. Bank N.A. for custody fees in the following amounts:

Administration	\$11,936
Fund Accounting	23,016
Transfer Agency	
(excludes out-of-pocket expenses and sub-ta fees)	15,243
Custody	3,262
Chief Compliance Officer	2,250

Note 5 – Purchases and Sales of Securities

For the year ended November 30, 2018, the cost of purchases and the proceeds from sales of securities, excluding short-term securities, were as follows:

Non-Government		Government	
Purchases	Sales	Purchases	Sales
\$37,348,613	\$32,636,877	\$ —	\$10,609,752

Note 6 – Line of Credit

The Fund has a line of credit in the amount of \$15,000,000. The line of credit is intended to provide short-term financing, if necessary, subject to certain restrictions, in connection with shareholder redemptions. The credit facility is with the Fund’s custodian, U.S. Bank N.A. The Fund did not draw upon its line of credit during the year ended November 30, 2018.

PIA Short-Term Securities Fund

Notes to Financial Statements – November 30, 2018 (continued)

Note 7 – Federal Income Tax Information

The tax character of distributions paid during the years ended November 30, 2018 and November 30, 2017 was as follows:

	<u>November 30, 2018</u>	<u>November 30, 2017</u>
Ordinary income	\$2,587,797	\$1,949,900

As of November 30, 2018, the components of accumulated earnings/(losses) on a tax basis were as follows:

Cost of investments (a)	\$168,942,101
Gross unrealized appreciation	185,573
Gross unrealized depreciation	(918,303)
Net unrealized depreciation (a)	(732,730)
Undistributed ordinary income	54,154
Undistributed long-term capital gains	—
Total distributable earnings	54,154
Other accumulated losses	(419,334)
Total accumulated earnings/(losses)	\$ (1,097,910)

(a) The book-basis and tax-basis net unrealized depreciation are the same.

The Fund had tax capital losses which may be carried over to offset future gains. Such losses expire as follows:

<u>2019</u>	<u>Short-Term Indefinite</u>	<u>Long-Term Indefinite</u>	<u>Total</u>
\$63,174	\$31,266	\$324,894	\$419,334

Note 8 – Principal Risks

Below is a summary of some, but not all, of the principal risks of investing in the Fund, each of which may adversely affect the Fund's net asset value and total return. The Fund's most recent prospectus provides further descriptions of the Fund's investment objective, principal investment strategies and principal risks.

- **Counterparty Risk.** Fund transactions involving a counterparty are subject to the risk that the counterparty or a third party will not fulfill its obligation to the Fund. Counterparty risk may arise because of the counterparty's financial condition (i.e., financial difficulties, bankruptcy, or insolvency), market activities and developments, or other reasons, whether foreseen or not. A counterparty's inability to fulfill its obligation may result in significant financial loss to the Fund.
- **Interest Rate Risk.** The value of the Fund's investments in fixed-income securities will change based on changes in interest rates. If interest rates increase, the value of these investments generally declines. Securities with greater interest rate sensitivity and longer maturities generally are subject to greater fluctuations in value. Given that the Federal Reserve has begun to raise interest rates, the Fund may face a heightened level of interest rate risk.

PIA Short-Term Securities Fund

Notes to Financial Statements – November 30, 2018 (continued)

- **Credit Risk.** The issuers of the bonds and other debt securities held by the Fund may not be able to make interest or principal payments.
- **Market and Regulatory Risk.** Events in the financial markets and economy may cause volatility and uncertainty and adversely impact the Fund's performance. Market events may affect a single issuer, industry, sector, or the market as a whole. Traditionally liquid investments may experience periods of diminished liquidity. Governmental and regulatory actions, including tax law changes, may also impair portfolio management and have unexpected or adverse consequences on particular markets, strategies, or investments.
- **Prepayment Risk.** Issuers of securities held by the Fund may be able to prepay principal due on these securities, particularly during periods of declining interest rates. Securities subject to prepayment risk generally offer less potential for gains when interest rates decline, and may offer a greater potential for loss when interest rates rise. When debt obligations are prepaid or when securities are called, the Fund may have to reinvest in securities with a lower yield. Prepayment risk is a major risk of mortgage-backed securities.
- **Extension Risk.** An issuer may pay principal on an obligation held by the Fund (such as an asset-backed or mortgage-backed security) later than expected. This may happen during a period of rising interest rates. Under these circumstances, the value of the obligation will decrease.
- **Risks Associated with Asset-Backed Securities.** These include Market and Regulatory Risk, Interest Rate Risk, Credit Risk, Prepayment Risk and Extension Risk (each described above). Asset-backed securities may decline in value when defaults on the underlying assets occur and may exhibit additional volatility in periods of changing interest rates.
- **Risks Associated with Mortgage-Backed Securities.** These include Market and Regulatory Risk, Interest Rate Risk, Credit Risk, Prepayment Risk and Extension Risk (each described above) as well as the risk that the structure of certain mortgage-backed securities may make their reaction to interest rates and other factors difficult to predict, making their prices very volatile. In particular, events related to the U.S. housing market in recent years had a severe negative impact on the value of some mortgage-backed securities and resulted in an increased risk associated with investments in the securities.
- **Liquidity Risk.** Reduced liquidity in the bond markets can result from a number of events, such as limited trading activity, reductions in bond inventory, and rapid or unexpected changes in interest rates. Less liquid markets could lead to greater price volatility and limit the Fund's ability to sell a holding at a suitable price.
- **Rule 144A Securities Risk.** The market for Rule 144A securities typically is less active than the market for publicly-traded securities. Rule 144A securities carry the risk that the liquidity of these securities may become impaired, making it more difficult for the Fund to sell these securities.
- **Adjustable Rate and Floating Rate Securities Risks.** Although adjustable and floating rate debt securities tend to be less volatile than fixed-rate debt securities, they nevertheless fluctuate in value.
- **Risks Associated with Inflation and Deflation.** Inflation risk is the risk that the rising cost of living may erode the purchasing power of an investment over time. Deflation risk is the risk that prices throughout the economy decline over time – the opposite of inflation.

PIA Short-Term Securities Fund

Notes to Financial Statements – November 30, 2018 (continued)

- **ETF and Mutual Fund Risk.** When the Fund invests in an ETF or mutual fund, it will bear additional expenses based on its pro rata share of the ETF's or mutual fund's operating expenses, including the potential duplication of management fees. The risk of owning an ETF or mutual fund generally reflects the risks of owning the underlying securities that the ETF or mutual fund holds. The Fund also will incur brokerage costs when it purchases ETFs.
- **High Yield Securities Risk.** Securities with ratings lower than BBB- or Baa3 are known as "high yield" securities (commonly known as "junk bonds"). High yield bond issuers are more likely to suffer an adverse change in financial condition that would result in the inability to meet a financial obligation. Accordingly, securities issued by such companies carry a higher risk of default and should be considered speculative.

Note 9 – Subsequent Event

The President, Chief Executive Officer and Principal Executive Officer of the Trust resigned on October 25, 2018. The Board appointed Mr. Jeffrey T. Rauman, Senior Vice President, U.S. Bancorp Fund Services, LLC, as the new President, Chief Executive Officer and Principal Executive Officer of the Trust at its December 2018 Board meeting. During the interim period, in accordance with the Trust's governing documents, the Vice Presidents of the Trust were authorized to carry out the duties of the President.

Note 10 – Other Tax Information (Unaudited)

For the year ended November 30, 2018, none of the dividends paid from net investment income qualifies for the dividend received deduction available to corporate shareholders of the Fund. For shareholders in the Fund, none of the dividend income distributed for the year ended November 30, 2018 is designated as qualified dividend income under the Jobs and Growth Relief Act of 2003.

On December 27, 2018, the Fund distributed \$0.01845664 per share of net investment income.

PIA Short-Term Securities Fund

Report of Independent Registered Public Accounting Firm

**To the Board of Trustees
Advisors Series Trust and
Shareholders of
PIA Short-Term Securities Fund**

Opinion on the Financial Statements

We have audited the accompanying statement of assets and liabilities of the PIA Short-Term Securities Fund, a series of Advisors Series Trust (the “Trust”), including the schedule of investments, as of November 30, 2018, the related statement of operations for the year then ended, the statements of changes in net assets for each of the two years in the period then ended, financial highlights for each of the five years in the period then ended, and the related notes (collectively referred to as the “financial statements”). In our opinion, the financial statements present fairly, in all material respects, the financial position of the Fund as of November 30, 2018, the results of its operations for the year then ended, the changes in its net assets for each of the two years in the period then ended, and the financial highlights for each of the five years in the period then ended, in conformity with accounting principles generally accepted in the United States of America.

Basis for Opinion

These financial statements are the responsibility of the Fund’s management. Our responsibility is to express an opinion on the Fund’s financial statements based on our audits. We are a public accounting firm registered with the Public Company Accounting Oversight Board (United States) (“PCAOB”) and are required to be independent with respect to the Fund in accordance with the U.S. federal securities laws and the applicable rules and regulations of the Securities and Exchange Commission and the PCAOB. We have served as the auditor of one or more of the funds in the Trust since 2003.

We conducted our audits in accordance with the standards of the PCAOB. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement, whether due to error or fraud. The Fund is not required to have, nor were we engaged to perform, an audit of its internal control over financial reporting. As part of our audits we are required to obtain an understanding of internal control over financial reporting, but not for the purpose of expressing an opinion on the effectiveness of the Fund’s internal control over financial reporting. Accordingly, we express no such opinion.

Our audits included performing procedures to assess the risks of material misstatement of the financial statements, whether due to error or fraud, and performing procedures that respond to those risks. Such procedures included examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements. Our audits also included evaluating the accounting principles used and significant estimates made by management, as well as evaluating the overall presentation of the financial statements. Our procedures included confirmation of securities owned as of November 30, 2018 by correspondence with the custodian and brokers; when replies were not received from brokers, we performed other auditing procedures. We believe that our audits provide a reasonable basis for our opinion.

PIA Short-Term Securities Fund

Notice to Shareholders – November 30, 2018

(Unaudited)

How to Obtain a Copy of the Fund’s Proxy Voting Policies

A description of the policies and procedures that the Fund uses to determine how to vote proxies relating to portfolio securities is available without charge, upon request, by calling 1-800-251-1970, or on the Securities and Exchange Commission’s (“SEC”) website at <http://www.sec.gov>.

How to Obtain a Copy of the Fund’s Proxy Voting Records for the 12-Month Period Ended June 30

Information regarding how the Fund voted proxies relating to portfolio securities during the most recent 12-month period ended June 30 is available without charge, upon request, by calling 1-800-251-1970. Furthermore, you can obtain the Fund’s proxy voting records on the SEC’s website at <http://www.sec.gov>.

Quarterly Filings on Form N-Q

The Fund files its complete schedules of portfolio holdings with the SEC for the first and third quarters of each fiscal year on Form N-Q. The Fund’s Form N-Q is available on the SEC’s website at <http://www.sec.gov>. The Fund’s Form N-Q may be reviewed and copied at the SEC’s Public Reference Room in Washington, DC, and information on the operation of the Public Reference Room may be obtained by calling 1-202-551-8090. Information included in the Fund’s Form N-Q is also available by calling 1-800-251-1970.

Householding

In an effort to decrease costs, the Fund intends to reduce the number of duplicate prospectuses, annual and semi-annual reports, proxy statements and other regulatory documents you receive by sending only one copy of each to those addresses shared by two or more accounts and to shareholders the Transfer Agent reasonably believes are from the same family or household. Once implemented, if you would like to discontinue householding for your accounts, please call toll-free at 1-800-251-1970 to request individual copies of these documents. Once the Transfer Agent receives notice to stop householding, the Transfer Agent will begin sending individual copies thirty days after receiving your request. This policy does not apply to account statements.

* Under the Trust's Agreement and Declaration of Trust, a Trustee serves during the continued lifetime of the Trust until he/she dies, resigns, is declared bankrupt or incompetent by a court of appropriate jurisdiction, or is removed, or, if sooner, until the election and qualification of his/her successor. In addition, the Trustees have designated a mandatory retirement age of 75, such that each Trustee first elected or appointed to the Board after December 1, 2015, serving as such on the date he or she reaches the age of 75, shall submit his or her resignation not later than the last day of the calendar year in which his or her 75th birthday occurs.

- (1) The Trustees of the Trust who are not "interested persons" of the Trust as defined under the 1940 Act ("Independent Trustees").
- (2) As of November 30, 2018, the Trust was comprised of 41 active portfolios managed by unaffiliated investment advisers. The term "Fund Complex" applies only to the Fund and the PIA BBB Bond Fund, the PIA High Yield Fund, the PIA High Yield (MACS) Fund, the PIA MBS Bond Fund and the PIA Short Duration Bond Fund. The Funds do not hold themselves out as related to any other series within the Trust for investment purposes, nor does it share the same investment adviser with any other series.
- (3) "Other Directorships Held" includes only directorships of companies required to register or file reports with the SEC under the Securities Exchange Act of 1934, as amended, (that is, "public companies") or other investment companies registered under the 1940 Act.
- (4) Mr. Redwine became an Independent Trustee on January 1, 2018.

The Statement of Additional Information includes additional information about the Funds' Trustees and Officers and is available, without charge, upon request by calling 1-800-251-1970.

PRIVACY NOTICE

The Fund collects non-public information about you from the following sources:

- Information we receive about you on applications or other forms;
- Information you give us orally; and/or
- Information about your transactions with us or others.

We do not disclose any non-public personal information about our customers or former customers without the customer's authorization, except as permitted by law or in response to inquiries from governmental authorities. We may share information with affiliated and unaffiliated third parties with whom we have contracts for servicing the Fund. We will provide unaffiliated third parties with only the information necessary to carry out their assigned responsibilities. We maintain physical, electronic and procedural safeguards to guard your non-public personal information and require third parties to treat your personal information with the same high degree of confidentiality.

In the event that you hold shares of the Fund through a financial intermediary, including, but not limited to, a broker-dealer, bank, or trust company, the privacy policy of your financial intermediary would govern how your non-public personal information would be shared by those entities with unaffiliated third parties.

Beginning on January 1, 2021, as permitted by regulations adopted by the Securities and Exchange Commission, paper copies of the Fund's shareholder reports will no longer be sent by mail, unless you specifically request paper copies of the reports from the Fund (defined herein) or from your financial intermediary, such as a broker-dealer or bank. Instead, the reports will be made available on a website, and you will be notified by mail each time a report is posted and provided with a website link to access the report.

If you already elected to receive shareholder reports electronically, you will not be affected by this change and you need not take any action. You may elect to receive shareholder reports and other communications from the Fund or your financial intermediary electronically through the Fund's website.

You may elect to receive all future reports in paper free of charge. You can inform the Fund or your financial intermediary that you wish to continue receiving paper copies of your shareholder reports. Your election to receive reports in paper will apply to all Funds held within the fund complex and may apply to all Funds held through your financial intermediary.
