Pacific Income Advisers

AS OF SEPTEMBER 30, 2019

PIA SHORT TERM

INVESTMENT **OBJECTIVE**[1]

PIA's Short Term Strategy seeks to outperform the **Bloomberg Barclays Government 1-3 Year Index** over a full economic cycle, with equal to or lower volatility.

INVESTMENT **PHILOSOPHY**

We know that the various sectors within the bond market are periodically torqued by cyclical, monetary or market pressures, which can lead to mispricings and create opportunities to produce excess return. **We intend** to exploit these periodic opportunities by risk-adjusting the various bond market sectors, utilizing yield curve and sector analysis, and fundamental bottom-up risk measurement. **We seek** to capitalize on these opportunities to earn above-average risk-adjusted yields, while creating the potential for capital gains as these sectors revert toward their fair value.

THE **FIRM**

Ownership	**Independent and Employee-owned**
Inception	**1986**
Location	**Santa Monica, California**
Employees	**27**
Firm Assets	**$7 billion**
Strategy Assets	**$120 million**
GIPS Verified	**Yes**
Firm Verifier	**ACA Performance Services, LLC**

INVESTMENT **PROCESS**

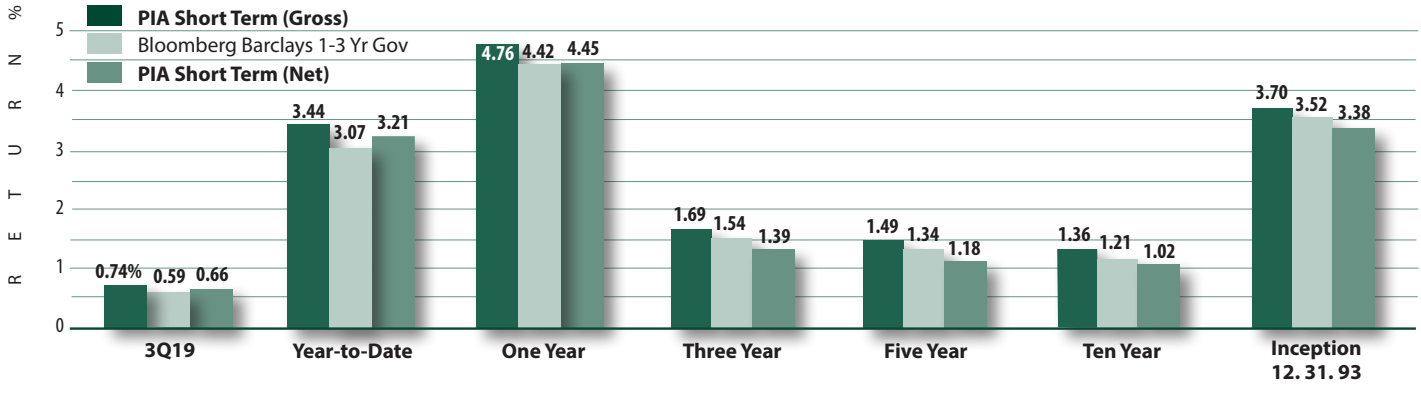
» **Yield Curve and Sector Analysis** PIA deconstructs the bond market into yield curve, quality and industry sectors and utilizes quantitative yield curve and sector analysis to identify sectors that are undervalued on a risk adjusted basis. We further apply qualitative bottom-up fundamental analysis to identify the issues that best reflect our sector views.

» **Security Research** We combine fundamental top-down industry analysis with bottom-up fundamental security and ratio analysis to select credit securities. Additionally, we utilize multi-factor models that produce value and risk metrics to identify attractive Mortgage-backed and Asset-backed Securities.

» **Portfolio Construction** Portfolio Managers construct portfolios to meet the strategic portfolio objectives set forth by the PIA Investment Strategy Group for duration, sector weights and yield curve positioning. The PIA Neural Network, which produces probabilistic insights into factors affecting sector valuations, is a tool utilized by the Investment Strategy Group in tactical decision-making. Credit securities are selected by our credit analysts, while mortgage-backed securities are selected with the support of our MBS specialists.

» **Portfolio Management** Portfolio Managers strive to consistently maintain the risk / return composition goals stated in the client's investment policy statement (IPS). The firm's Portfolio Administrator is responsible for quarterly verification that client portfolios adhered to their IPS.

ANNUALIZED **PERFORMANCE**[2] as of 9. 30. 19



[2]Periods less than one year are not annualized.

Short Term Composite consists of portfolios benchmarked to the Bloomberg Barclays U.S. 1-3 Year Government Bond Index and is constructed from all major fixed income sectors. Portfolios managed in this style tend to be conservative in terms of sector weights, quality and duration ranges, compared to that of the index. The composite may invest in sectors that are not included in the Index and may not necessarily be representative of its benchmark. The minimum account size for this composite is $1 million. Prior to April 1, 2009 there was a $3 million minimum account size for this composite.

Returns are presented gross and net of fees and include the reinvestment of all income. Gross and net of fee returns are net of all transaction cost. Past performance is not indicative of future results. The U.S. Dollar is the currency used to express performance. Short Term Composite was created January 1994. The inception date is January 1, 1994.

Net of fee performance was calculated using the highest annual management fee of 0.30% applied to the gros results on a monthly basis. For the periods 3/31/09 to 12/31/12 the fee was 0.40%. Prior to 3/31/09, the fee was 0.30%. The management fee schedule is as follows: 0.25% on the first $10 million, 0.20% on the next $40 million, 0.175% on the next $50 million, and 0.15% on the balance. Actual investment advisory fees incurred by clients may vary.
