Pacific Income Advisers is an investment management firm registered with the U.S. Securities and Exchange Commission under the Investment Advisers Act of 1940. PIA manages a variety of fixed income and equity assets for primarily United States clients.

The Moderate Duration MACS Composite consists of wrap portfolios benchmarked to the Bloomberg U.S. Aggregate Bond Index and is constructed from all major fixed income sectors. Portfolios managed in this style tend to be conservative in terms of sector weights, quality and duration ranges, compared to that of the index. The composite may invest in sectors that are not included in the Index and may not necessarily be representative of its benchmark. Prior to July 1, 2008, the composite was named the Moderate Duration SMA Composite. Prior to January 1, 2007 returns were from institutional non-bundled accounts. The minimum account size for this composite is \$75 thousand. Prior to April 1, 2009 the minimum account size was \$5 million.

The Moderate Duration MACS Composite was created in January 2006 and is managed by Pacific Income Advisers (PIA). Returns are presented gross and net of fees and include the reinvestment of all income. Accounts in the composite will pay an all-inclusive fee based on a percentage of assets under management. Other than portfolio management, the all-inclusive fee includes brokerage commissions, consulting services, and in some cases, custodial services. Beginning January 1, 2007, wrap accounts make up 100% of the composite. For this period, gross returns are shown as supplemental information and are stated gross of all fees and transaction costs. Prior to January 1, 2007, performance presented represents that of the Moderate Duration Composite, which does not contain any wrap fee accounts. For this period, gross returns were reduced by transaction costs. The U.S. Dollar is the currency used to express performance. Past performance is not indicative of future results. To receive a complete list and description of PIA's composites and or a GIPS Report, contact Nicholas Parenti, at (310) 255-4427 or by email at nparenti@pacificincome.com.

¹Bloomberg U.S. Aggregate Bond Index is an unmanaged index that covers the investment grade fixed rate bond market with index components for government and corporate securities, mortgage pass-through securities, and asset-backed securities. The issues must be rated investment grade, be publicly traded, and meet certain maturity and issue size requirements. You cannot invest directly in an index.

²Net of fee performance was calculated using the highest annual wrap fee of 1.50%, applied monthly. In presentation presented prior to 12/31/21, the net of fee returns were calculated using a highest fee of 2.82%.
