**Preliminary 2Q26 perfromance.*

Pacific Income Advisers is an investment management firm registered with the U.S. Securities and Exchange Commission under the Investment Advisers Act of 1940. Registration does not imply a certain level of skill or training. PIA manages a variety of fixed income and equity assets for primarily United States clients.

Intermediate Core Plus Composite consists of portfolios benchmarked to the Bloomberg U.S. Intermediate Government/Credit Bond Index and is constructed from all major fixed income sectors. Portfolios managed in this style seek to maximize total return and allow the use of non-investment grade securities as well as other non-benchmark sectors. The composite will tactically invest in sectors outside the index (typically ranging from 10% - 40%) and hold more concentrated positions to enhance returns and diversify risk. The minimum account size for this composite is $1 million.

The Intermediate Core Plus Composite was created in December 2014 and is managed by Pacific Income Advisers (PIA). Returns are presented gross and net of fees and include the reinvestment of all income. Gross and net of fee returns are net of all transaction cost. The U.S. Dollar is the currency used to express performance. Past performance is not indicative of future results. To receive a complete list and description of PIA's composites and or a GIPS Report, contact Nicholas Parenti, at (310) 255-4427 or by email at nparenti@pacificincome.com.

Investing involves the risk of loss, including the loss of principal invested. A few of the main risks facing a fixed income strategy like this include Interest Rate Risk, Credit Risk, High Yield Securities Risk, Government Sponsored Entity Risk and Risks associated with Mortgage-Backed Securities. For a full description of these and other risks facing the portfolio please review the Risk of Loss section in our ADV Client Brochure.

Pacific Income Advisers claims compliance with the Global Investment Performance Standards (GIPS®). GIPS® is a registered trademark of CFA Institute. CFA Institute does not endorse or promote this organization, nor does it warrant the accuracy or quality of the content contained herein.

[1] Bloomberg U.S. Intermediate Government/Credit Bond Index is the Intermediate component of the U.S. Government/Credit index. The Government/Credit Index includes securities in the Government and Credit Indices. The Government Index includes treasuries (i.e., public obligations of the U.S. Treasury that have remaining maturities of more than one year) and agencies (i.e., publicly issued debt of U.S. Government agencies, quasi-federal corporations, and corporate or foreign debt guaranteed by the U.S. Government). The Credit Index includes publicly issued U.S. corporate and foreign debentures and secured notes that meet specified maturity, liquidity, and quality requirements. You can not invest directly in an index.

[2] Net of fee performance was calculated using the highest annual management fee of 0.35%, applied to the gross results on a monthly basis.
